GENERAL NEWS

[BY TELEGRAPH TO THE OREGONIAN.]

Senator Conkling Sick.

NEW YORK, Nov 9.—Senator Conkling ... in town en route to Washington quite ... His friends are alarmed.

Loss of a Famous Vessel in Northern Waters.

NEW YORK, Nov 8.—News was received to day that the well known whaling schooner *Florence* lately employed by Capt. H. H. Howgate, of the signal bureau in the polar investigation under command of Capt. Tyson had been lost in Cumberland strait on the east of Hudson bay. She parted her chain and went ashore during a gale; nobody lost. The *Florence* was owned by C. A. Williams of New Bedford; on one trip to the South Shetland islands, she made in 1872 three hundred thousand dollars by bringing fur seal skins. Her captain received $30,000 as his part. She was less than one hundred tons burden. The crew were taken off by Scotch vessels.

A Gigantic Fraud Promptly Throttled.

DENVER, Col., Nov 8.—Sidney A. Grant, late of Cincinnati and A. F. Wilson were arrested to day for conducting a fraudulent scheme through the mails under the name of "The Denver Land Company," and were taken before a United States commissioner. They waived examination and were committed to bonds which have not yet been given and probably will go to jail. The scheme was planned in Cincinnati. Stereotype plates were prepared and have already been inserted in over eight hundred first class newspapers and periodicals in the northern eastern and middle states. Grant came to Denver to secure land for the purpose and bought nearly a thousand acres in the sand hills forty miles north of Denver which was platted and recorded as North Denver. Although known here but eight days a perfect avalanche of mail is coming for S. A. Grant and the Denver Land Company. The fraud was denounced by local newspapers and bitterly condemned by citizens. Postmasters reported to the department and last night received orders to deliver no registered letters and pay no money orders to Grant. The arrest was made by Special Agent H. Hall. Special Agent Furay is also here and asks a department order withholding ordinary letters.

Drowned in the Merrimac.

LOWELL, Mass., Nov 9.—Three persons were drowned in the Merrimac river this evening near French Mills.

Death by Suffocation.

NEW YORK, Nov 8.—Mrs. Mary Sincere residing at Brooklyn and a young son were suffocated by foul air to day in an old cistern into which the child fell and the mother jumped to rescue him.

Bad Row at Rawlins.

RAWLINS, Wy., Nov 9.—This afternoon Francis Murray, a government teamster while intoxicated, shot and fatally wounded Chas. Chapman of Los Angeles, Cal. Murray then reloaded the carbine and a revolver with the intention of cleaning the neighborhood of the government wagon corral. He fired several shots at citizens and a soldier, when sheriff J. G. Rankin came on the scene, who finding it impossible to capture Murray without danger to himself and others, fired on him with a double-barreled shotgun killing him instantly. A coroner's jury exonerated the sheriff.

A SICKENING HORROR.

Several Persons Burned to Death at Kansas City.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

KANSAS CITY, Nov 8.—Cole & Co's candy factory, one of the largest establishments in the state, is now burning having caught fire from the explosion of the starch dust, a material largely used in the compounding of fancy candies. The flames spread rapidly in a few moments, rendering the main escape impossible, and the large number of employees engaged in various parts of the building were saved by the firemen who with their ladders were on hand before the fire reached the upper stories. Two or three persons are known to have perished and others are missing. The work of exhuming the bodies will commence as soon as the debris now smouldering shall become cooled off.

Looking for the Dead.

KANSAS CITY, Nov. 9.—Great crowds of people gathered round the scene of yesterday's disaster at an early hour this morning watching workmen removing the debris in search of the bodies of Geo. Kemper, aged 14, and Andy McConnell of the same age. The roll of employes was called this morning and all were accounted for except these two. The death roll numbers six and the list of wounded 12 but none of the latter are fatally injured.

More Victims Found—An Act of Heroism.

LATER.—Besides those reported this morning the bodies of Ed Shutter, Louis Hummel, Anna McConnell and Miss Goepper have been taken from the ruins of Cole & Co's candy factory. A search for others still continues. The loss is estimated at $75,000. Jos. McGuire an employe acted with great heroism. He dragged Miss Nellie Horton and Mrs Long down two flight of stairs through stifling smoke and fire. At the bottom of the stairs Miss Horton fell suffocated from smoke. Seizing Mrs Long in his arms he rushed through a sheet of flames to the front of the building, then attempted to return for Miss Horton, but the fire was so fierce by this time he could not reach her. She was rescued, however, from the rear of the factory.

EASTERN GRAIN BUSINESS.

Prospects for Storage in New York this Winter—Lake and Canal Navigation.

[SPECIAL DISPATCH TO THE OREGONIAN.]

NEW YORK, Nov 8.—Members of the produce exchange claim that there is no cause for uneasiness lest owing to large supplies of grain coming forward the storage capacity of this port will soon be found inadequate to the demand. The visible supply of grain comprising the stocks in granary at the principal points of accumulation at lake and seaboard ports, and in transit by lake rail and canals on November 1 was: Wheat, 28,8[illegible] bushels, corn 11,15[illegible],761 bushels, oats 3,3[illegible] bushels, barley 4,30[illegible],004 bushels, rye [illegible],313 bushels. The total amount of grain in store at this port on November 1st was 10,[illegible],502 bushels against 11,104,307 bushels in 1878, and 6,273,845 bushels in 1877. As the season is now far advanced very few of the canal boats will make return trips to Buffalo and as they will be laid up for the winter they will be used as storehouses where required. E. H. Walker, statistician of the exchange says the prospects are favorable for the navigation of canals up to December but shipments from Buffalo and Oswego will rapidly decline after Monday next as bankers and shippers do not like to run the risk of having grain frozen in the canals during the winter at points where it is not marketable. Lake navigation will close about Nov [illegible], insurance policies on hulls terminate on that date, and risks on cargoes will only be taken at special and high rates afterward. Railways are now ... to the ... [illegible] ... navigation ... [illegible] ... of wheat ... [illegible]

DISASTER AT SEA.

The Steamer Champion and Ship Lady Octavia Come Into Collision Off Cape May.

The Former Sinking in a Few Minutes Carries Down Thirty-Two Persons Including Several Women and Children.

Statements from the Captain of the Octavia and the Officer on Watch—Showing the Blame on the Watch of the Champion.

[SPECIAL DISPATCH TO THE OREGONIAN.]

LEWES, Del., Nov 8.—The ship *Lady Octavia* from the breakwater for New York came into collision with the steamer *Champion* from New York for Charleston striking the steamer amidships and sinking her in five minutes. Twenty five persons are reported saved and ... lost. The collision occurred ... off the capes at 4 o'clock yesterday morning. The ship is badly damaged and is being towed to Philadelphia.

Confirmation of the First Report—More Particulars of the Disaster.

NEW YORK, Nov 8.—A dispatch from Lewes Delaware says that crowds of people have gathered around the branch offices of the Maritime Exchange hungrily asking for news from reports of pilot boats. It appears that the bark struck the steamship amidships cutting her to the water's edge. She filled and sank in five minutes. That 32 lives were lost is confirmed by later reports. The collision took place 35 miles eastward of Capes May and Henlopen just about daylight at which time considerable fog lay on the ocean off shore. The ship *Lady Octavia* was much damaged and could not proceed further on her voyage. Accordingly a signal of distress was hoisted and a flag shown for a tug. One of the large Delaware Bay tug boats came to her and gave her a tow. She is now on her way up the Delaware river bound to Philadelphia. The breakwater is full of shipping and masters of vessels at anchor here and residents of Pilot Town are flocking to Lewes for news. The *Champion* was one of the first iron steamships launched in this country having been built in 1859 at Wilmington Delaware for the late Commodore Vanderbilt. She had frequently been overhauled and repaired and was considered in excellent condition. The ship which did the damage is an old English built ship, one of the first in fact built exclusively of iron in the British Lloyds. She is reported to be built of heavier iron plates than the law requires. The *Champion* was amply provided with life saving appliances for 165 persons. She had five metal life boats all equipped, one life raft, and 150 life preservers.

Arrival of the "Lady Octavia" at Philadelphia—Her Captain's Statement.

PHILADELPHIA, Nov 9.—The ship *Lady Octavia* in collision with the steamship *Champion* has arrived. The first mate of the *Octavia* James Fergus was in charge of the deck at the time of the collision. The *Octavia* brought none of the rescued to the port. Following is a list of those of the *Champion's* crew and passengers known to have been saved: R. W. Lockwood captain, Chas Miller second mate, John Thompson, Chas Ehler, Fred Mackmon, Fred Rickards and Frank Jackson seamen, Richard Owens (boy), Wesley Reeve chief engineer, Chas F Bunce first assistant engineer, Ed Jones, W Farrell, Patrick Flynn and Luke Kelly firemen, Alex Ross coal passer, Isaac Hammond chief clerk, John Foster porter, Catherine Cross stewardess, Geo Holland and Moses Pinckney, waiters. Four passengers and two of the crew were placed on board an unknown bark and sent to New York. Capt James Johnson of Greenock, master of the *Lady Octavia*, makes the following statement: My ship arrived at Delaware breakwater from Rio Janeiro for orders on the 23d of October and sailed for New York about the 10th of October. Thursday night last at about a quarter past two Friday morning, when we had sailed about 30 miles, a collision occurred. The night was clear and warm. The moon was shining bright and we were moving at the rate of three or four knots an hour. My chief mate reported a steamer ahead ten minutes before the accident happened. The steamer continued on her course and I on mine, and we approached each other but immediately before the crash the man on the lookout of my vessel reported the steamer's starboard light from our port bow, and then she shutted and her port light became visible showing that she had turned on her course. We had a man on the lookout constantly but there could have been no lookout on the *Champion*. Her captain Lockwood subsequently told me that he had altered his course a moment before the collision but assigned no reason for doing so and that he did not see my ship which indicates that my idea in regard to the lookout was correct. Indeed I was informed that the man who should have been on lookout was aloft loosening sail. The ship sank in four minutes after the collision and there was a terrible panic. I at once ordered the boats lowered and in fact they were in the water before the steamer went down. Two of her crew jumped on board my ship at the time she struck. In all thirty persons were lost, among them the first mate and five women. Twelve of the missing were passengers. I mean to say that the steamer came at us end on, and there was no possible means of avoiding her. It was impossible to tell the extent of her injuries she went down so quickly and there was so much confusion. Four of her passengers and two of her crew were sent to New York in a bark that came alongside but I did not get their names or the name of the vessel they are on.

Statement of the "Octavia's" Boatswain—The Watch of the "Champion" Clearly to Blame for the Disaster.

PHILADELPHIA, Nov 9.—The following statement in regard to the disaster is made by the boatswain of the *Octavia*: I was on the deck of the *Octavia* at the time of the collision being one of the watch. We saw the steamer but she was not heading for us so we kept our course, all of a sudden the steamer took a sheer over to port, but there did not appear to be anybody on her deck except one man who was engaged in loosening sail. We called to the steamer but it was too late as we were struck immediately. She was so close that two of her crew sprang over her side on our vessel. We swung on to back her stern and she did so but ... minutes afterwards she went down. We ... boat and picked up nine persons. We then ... a second time and picked up about thirteen more persons some of whom were in a small boat and three in a life raft. They were crying and screaming for help. The third time we ... but no more ... The wreck was ... seen. As soon as the ... struck ... fore compartment all ... water to a depth of 11 or 12 feet but the vessel being built with tight bulkheads the water did not get into any other part ... The ... of the steamer who came ... New York was on the deck of the ... and was lost. Three ladies and several children ... the ... saved.

THE PACIFIC COAST.

CALIFORNIA

The New Crick.

SAN FRANCISCO, Nov 9.—St. ... attempt to beat his own time has been postponed one week on account of heavy track from rain.

A Murderous Assault.

SAN FRANCISCO, Nov 8.—At about half past 1 this afternoon Michael Coghlan a barkeeper in Innis Fallen's saloon on Montgomery avenue, between Montgomery and Kearney was stabbed by Daniel Leon a miner from Dutch Flat receiving probably fatal wounds. Coghlan has made an ante mortem statement to the effect that Leon entered the saloon demanding the return of some money which he alleged was in Coghlan's possession. The latter who disclaims having any money belonging to Leon answered accordingly when Leon who was in liquor at the time plunged a large Bowie knife several times into Coghlan's right side. Leon was arrested.

Very Good if True.

SAN FRANCISCO, Nov 8.—A report not fully verified was received this evening from Eureka, Humboldt county that the outlaws who recently had a fight with a sheriff's posse in Mendocino county had been overtaken near Red mountain that a savage fight ensued resulting in the wounding of several of the pursuers and killing of all the outlaws.

Another Story about the Outlaws.

RED BLUFF, Nov 9.—The Mendocino outlaws Brown, Billings and Gaunz have been tracked within a few miles of this place. Their trail was lost a few miles west of here. Sheriff Moore of Mendocino and Chas Foster sheriff of this county are after them, and have a large posse of men out. It is thought that they will be captured soon as they must be somewhere in this immediate vicinity. It is thought that they are endeavoring to leave the state as soon as possible but it is not known in which direction they will go. All bridges and ferries on the Sacramento are being carefully guarded night and day.

A Fatal Shot.

SAN FRANCISCO, Nov 9.—Jose Agrilla a Mexican was shot to day by Silvester Coronado, another Mexican who arrived here yesterday from Napa in search of his wife and two children and found them at the house of Agrilla hence the shooting. Agrilla is a gambler and has served one term in the penitentiary. He will probably die to night.

Suicide.

This morning Austino Celiz a Mexican aged 45 was found dead in a room in Pinkney Place with a bullet wound in his forehead and a derringer still clutched in his hand. Suicide attributed to ill health.

TIDINGS FROM THE JEANNETTE.

The Whaling Bark "Sea Breeze" Reports Having Seen Her in the Vicinity of Herald Island.

SAN FRANCISCO, Nov 8.—The bark *Sea Breeze*, the first of the whaling fleet arrived this morning. On the night of Sept 2d, when 50 miles south of Herald Island in lat 70° N, she saw a sail ahead which was supposed to be that of a brig but next morning found that it was a steamer. Both vessels were along the edge of pack-ice to the westward and loose ice from the eastward was setting towards them and from the northward, the wind fresh from southward with a strong southerly current. The *Sea Breeze* was hove to that day fearing to go further north. She saw the steamer which is supposed to be the *Jeannette* all that day and seemed to make little progress but was near the close of a bight made by pack and loose ice. That night a fog set in and it was thick all the next day (the 4th) until 4 P M when it cleared, but the steamer was not in sight. The pack-ice trended to the northeast from the latitude of Herald Island. A few days after the fleet came up and worked to the northward in the wake of loose ice. Capt. Nye of *Mt Wallasten* thinks he saw smoke in the offing thirty miles from Herald Island. Ice has been moving in the Arctic in large quantities all through the summer and vessels have got no further north or east than Icey Cape.

Another Whaler's Report.

SAN FRANCISCO, Nov 8.—The whaling bark *Dawn* arrived to day from the Arctic. On September 31 within 25 miles of Herald island, she saw the smoke of a steamer supposed to be the *Jeannette*. About September 25th the ice began to open rapidly ... the north. Saw Herald Island in October and could go all around it. On the 7th of October the captain's report continues we saw Wrangel's land distant less than 20 miles ... the east line showing very little snow. Mountains in the interior were covered with snow. We could not see any ice between us and Wrangel's land and we were much surprised as the outlook was very discouraging for the first part of September. I now think that the exploring vessel *Jeannette* will reach land ... we may expect to hear from her next year.

A QUEER SCHEME.

Story of an Agreement between California Democratic Leaders and the Sand Lotters.

By Which the Dems Propose to Contest the Legislature and Carry the State for their Presidential Candidate.

AN OPPRESSED TRIBE

Chief William a Northern Indian Publishes a Letter Detailing His Woes.

His Lands Taken Away by White Men and ... [illegible] ... A Boy ... Present of Turnip-seed—Justice is no Use for a Dead Indian.

[illegible] ... the following pathetic ...

I am an Indian chief ... [illegible] ... We have nothing, not an acre. Another white man has enclosed the graves in which the ashes of our fathers rest and we may live to see their bones turned over by his plow. Any white man can take three hundred and twenty acres of our land and the Indian dare not touch an acre. Her Majesty sent us a coat, we plough and some turnip seed. The coat will not keep away the hunger and the plows are idle and the seed useless because we have no land. All my people are willing to work because they know they must work like the white man or die. They work for the white men. Mr Batts was a good friend. He would not have a white man if he could get an Indian. My young men can plow and mow and cut corn with a cradle. Now what I want to say is this. The whites have taken all the salmon and all the land and my people will not starve in peace ... friends to the Indians say that her majesty loves her Indian subjects and will do ... There is no use for a dead Indian. They say Mr Sproat is coming to give you land. We hear he is a very good man but he has no horse. He was at Hope last June and he has not yet arrived here. Her majesty ought to give him a horse and let justice come fast to the starving Indians. Land, land, a little of our own land that is all we ask from her majesty. If we had the deer and the salmon we could live by hunting and fishing. We have nothing now and here comes the cold and the snow. May be the white man thinks we can live on snow. We ... make fires to make people warm that is what we can do. Wood will burn. We are not stones.

WILLIAM,
Chief of the Williams Lake Indians.

"OUT OF BONDAGE."

Two White Men, by Extraordinary Bravery and Endurance, Escape from Servitude among Northern Indians.

VICTORIA, Nov 9.—A carpenter and a laborer who were employed to build a warehouse near Stickeen river last summer were seized by about thirty Indians who forced them into one of their canoes and without explanation took them to an island not far from Fort Wrangel. The men remonstrated but in vain and their captors compelled them to assist in cleaning and drying fish and made them perform the most menial duties. This kind of treatment lasted several weeks but one day the carpenter and his comrade, in company with several Indians went out on a fishing cruise. About noon the canoe was loaded and all went ashore. Some of the Indians straggling away from the beach the carpenter saw that his time of deliverance had come and, according to his statement he quickly picked up a huge rock and rather stunned or killed three of the Indians who remained behind with him and his comrade. Then he grasped a paddle and jumping into the canoe ordered his friend to hurry up and come aboard. For a time the man seemed dazed not dreaming that the carpenter would have resorted to such desperate measures to ensure their escape. Eventually however he got into the canoe and both paddled off just as the other Indians returned to find their three tillicums lying senseless on the beach. Paddling with all their might the fugitives soon got clear of the island and after being at sea several days during which time they suffered great privations and subsisted only on a portion of a dried salmon which had been left in the canoe they fortunately reached Fort Wrangel whence they took passage on board one of the steamers and arrived in safety at this port.

NEVADA.

Change of Superintendent.

VIRGINIA, Nov 8.—Col Gillette superintendent of Savage has resigned and J. O. Kelly a lawyer formerly of Pioche has been appointed in his place.

Illegal Voter Punished.

CARSON, Nov 8.—R. R. Parkinson was sentenced to a fine of $500 and costs this evening in the U. S. circuit court for illegal voting and false registration.

A Rich Strike in the Hale and Norcross Mine.

VIRGINIA CITY, Nov 8.—An important strike has been made in Hale & Norcross and in a cross cut in the 2100 level, running west 150 feet from Savage line. At 10 o'clock to day this cross cut was six feet in good milling ore with no indications of a west wall. The *Gold Hill News* this evening says of it: The formation is certainly a promising one. The cross cut is six feet in this ore. The ore contains black sulphurets and chlorides with spots of stephanite. The outside of a specimen secured is covered with fine rich chlorides and much of the ore seems to be a fine soft chloride. There is no hesitancy in saying that the whole as shown would mill $100 per ton while selections could be made which would go high in the hundreds. Mr. Deidesheimer says that the vein is perfectly defined on the east by a clay wall and the approaches to the ore body are kindly.

[illegible]

THE WASHINGTON LEGISLATURE

[illegible] ... While few oratorical displays have been attempted this session ... the present ... a few bills introduced for ... and the ... work has been accomplished by ... the appropriation bill was ... voted ... territory.

Council.

BILLS INTRODUCED.

Julius—C. B. ...—an act legalizing the ... county commissioners.

... C. B. ...—an act regulating the ...

... C. B. ...—an act to establish an insane asylum ... wherein the patients shall not be prisoners and defining the postal rights of the ... to protect the inmates.

BILLS PASSED.

C. B. ...—An act to provide for the ... damages for ... caused by the ... of ... liquor.

H. B. 1[illegible]—An act prohibiting the owners of sheep and hogs from permitting the same to run at large in K... county.

C. B. 43—An act to authorize the governor to execute a bond to the United States.

H. B. ...—An act to annul an act relative to crimes and punishments and proceedings in criminal cases.

H. B. 1...—An act to annul sub-division ... sec ... chapter ... of an act to incorporate the city of Vancouver.

H. B. 14—An act to appropriate money for the University of Washington. This act was as above stated amended after a lengthy and spicy debate. The appropriation was ... a year and the free scholarships abolished.

McGinn advocated the original H. B. giving ... the first year ... the second and providing for free scholarships ... allowed those to whom these scholarships were given. His ground ... that by fostering and building up an institution of learning in our territory we insured a better system of education in ... the better class of immigrants and that the clause relating to ... scholarship was one of the best features of the bill as the mileage placed every county in the territory on an equal footing and the son of the poor man was enabled to attain an education equal to that of a rich one. He ... believe that sectarianism could influence members in a matter that should be looked upon in a much broader light and finished by eloquently asking that the original bill might pass.

Mr. Dudley also advocated the original bill strongly and forcibly declaring that as the bill stood it was pre-eminently ... the ... of the poor man and that its adversaries were making it ... for the rich. That it was better to spend money in educating than in building prisons.

Messrs Day, Dunbar and La Du favored the amendment. Each declaring that he was not influenced by any sectional feeling, but claimed that living so far from the university they could not take advantage of the benefits conferred by the bill as it stood. The mileage was only for one way and the pupil had to pay his own board. Besides they considered the principle wrong and nothing but a bid for influence and votes.

Amended and passed. Adjourned.

House.

BILLS INTRODUCED.

White—H. B. 17[illegible], an act to legalize certain ordinances of the city of Seattle and certain assessments and levy in said city.

Shaw—H. B. 1[illegible]3, an act to amend an act providing a system of common schools.

Stewart—H. B. 184, an act to amend subdiv 26 sec 82, chap 6 of an act to incorporate the city of Vancouver.

Ward—H. B. 185, an act to amend an act providing a system of common schools.

Ward—H. B. 1[illegible]6, an act appropriating money for immigration purposes.

Taylor—H. B. 1[illegible]7, an act to fix the number of members of the legislative assembly and to apportion the same.

BILLS PASSED.

H. B. 79—An act for the relief of Wm. Billings.

H. B. ...—An act for the relief of Yakima county.

H. B. 117—An act to repeal an act concerning the collection of poll tax.

H. B. 138—An act for the assessment and collection of taxes in Kitsap county.

H. B. ...—An act to change the boundary line of Pacific, Wahkiakum, Lewis and Skamania counties.

H. B. 124—An act to amend the charter of the city of Seattle.

H. B. ...—An act authorizing the Puget Sound Iron Company to construct a wharf at the head of Port Townsend Bay.

H. B. 109—An act to appropriate one half of the territorial tax of Snohomish county for the year 1880 for the purpose of building a territorial road therein.

H. B. 104—An act to confirm the location of the county seat of Island county.

H. B. 105—An act to enable counties to borrow money to pay their indebtedness.

THE HOOKER RESOLUTION.

I send this H. J. R. No 15 not being able to get it yesterday.

WHEREAS, We have recently received the sad intelligence of the death of the true patriot and gallant soldier, Major General Joseph Hooker; therefore be it

Resolved by the Legislative Assembly of the Territory of Washington, That in the death of this brave man who on the battle fields of Mexico and in the army of the republic during the recent war of the rebellion so nobly proved his devotion to the union the nation has lost a true patriot, a fearlessly brave officer and a loyal citizen and as a slight evidence of the feeling of our people on account of his death we by this testimonial desire to express to the nation at large a sorrow which is felt and which cannot be expressed in words.

Passed.

The Daily Oregonian

MONDAY MORNING NOV 10 1879

MR. TILDEN AND HIS PARTY

Since the election in New York the relations of Mr. Tilden to his party have become a subject of anxious discussion among the democratic seers and soothsayers who are casting about for the strongest name to conjure with in the coming presidential election. On the one hand Tilden's enemies declare that his cause is lost, that he never can rule his party, that it has been demonstrated that he cannot carry New York and this shelves him, and therefore that the convention will of course not seriously think of nominating him. On the other hand his friends say that the result in New York actually leaves his strength unimpaired, that the Kelly faction has now done its worst and that its strength will steadily dwindle, that Tilden has resources as a political manager which are worth more to his party than it can possibly lose through this personal hostility to him, and consequently that he is the man of all men who should be nominated for 1880.

By some who are merely curious and impartial spectators of this quarrel it has been assumed that Tilden had been put out of the list of possible candidates by the war upon him in his own state and the defeat of his candidate for the governorship, and yet we suspect that within a few months there may be reason to recall this judgment as a hasty one, and accept the opposite opinion. New York is the state which must be carried by Mr. Tilden's party if it would win the election. Republican success is possible without New York, though not likely, but democratic success is not under any circumstances possible without that state. Now who can carry it as democratic candidate for the presidency if Tilden can not?

In the use of the adroit methods of the political organizer Tilden is unequalled. His organization of the contest of 1876 was a marvel of skill and efficiency. There was concentration of effort on vital points and everything else was disregarded. No effort was wasted on surely republican states. In the four northern states on which it had been decided to concentrate every effort, there was worked up a prodigious and unexampled vote. The work was done minutely and in detail. Back in the remote country districts, hitherto neglected by the politician, as well as in the crowded precincts of the cities, the canvass was pushed with a thoroughness that was amazing. The emissaries of the reformer were everywhere. The local democracy were awakened and encouraged. Leaders of village opinion and men of influence in every neighborhood were sought out and engaged for the work. Needful money was furnished to fix the wavering and stimulate the faithful to additional exertions. The literary bureau was in constant operation, furnishing editorials for half the democratic newspapers of the United States. The effect of all this work was seen in the enormous vote obtained for Tilden, particularly in the four northern states in which the effort was chiefly made. The gain of the democratic vote in those states, as compared with the gain from one election to another in any former time was without parallel. It was the result of the thorough method, which the reformer of Gramercy Park, alone among presidential candidates, has had the resources, and perhaps the disposition, to employ.

Now if Tilden be set aside who is going to organize all this work and see it performed? Will Bayard? Will Hancock? The question is almost ridiculous. Under no candidate can the democratic party have so thorough a campaign as under Tilden. He is full of the resources of intrigue, has energy and skill, plenty of money and no scruples. His methods and his money are worth thousands of votes, which he may offer as an offset to those he may lose through the machinations of his personal enemies—and then perhaps have a large balance to spare. His party is likely to reflect on these things and see them with a good deal of clearness by the time the selection is made.

AN OMINOUS VOTE

The letter published to day on "Grant and the Presidency" contains matter which republicans may profitably consider. It cannot be doubted that those republicans of New York who have "scratched" Cornell would likewise "scratch" Grant, and some of them would be very likely to vote directly against him. It was not Cornell they opposed, but the system of politics of which he was understood to be a representative. That system was organized under Grant, and his re-election would be understood as making it stronger than ever. This vote in New York shows a large body of republicans who cannot be dragooned into support of it, and they are so numerous that the party cannot possibly do without them. It may be taken as a certainty that they would "scratch" Grant even more resolutely than they have "scratched" Cornell. Unless Grant could get forty or fifty thousand democratic votes in New York and a proportional number in Ohio, where could he surely obtain votes enough to give him those states? Sagacious politicians will do well to consider this situation, and all who sincerely desire the success of the republican party will find it profitable to be candid about it. The letter we print is written by a well known republican who has never faltered in his support of the party from 1856 to this day. He is neither an office-seeker nor a "sore-head," but writes simply as an observer of the signs of the times, and as one who disinterestedly regards the success of the republican party next year as vital to the interests of the country. The observations he makes are a timely reminder to those who are talking about the country being "wild and solid for Grant," that there is another side of the question which must be considered. Since Cornell ran 35,000 votes behind his ticket because he was a representative of the political methods of the Grant administration it is worth while to reflect upon the dangerous extent to which Grant himself would be scratched by the same class of republicans. It is better to speak of this matter now with courage and candor than to go it blindly for the Grant boom and get the eyes opened after it is too late. The vote in New York is significant and ominous. In that state there are tens of thousands of republicans who will not vote to continue and confirm Senator Conkling's hold upon its politics. This election therefore is a warning for 1880 and the best friends of the republican party are they who do not shrink from pointing it out.

INDIANS AND INDIAN LANDS

By the [illegible] with the Utes public attention has been drawn anew to our system of dealing with the Indians of the country and [illegible] for the time once more [illegible] in pointing out the error of the [illegible] and [illegible] that it [illegible] for [illegible] [illegible] with the Utes are settled [illegible] [illegible] [illegible] reservations [illegible]

[illegible] important information as to the number of Indians under the wardship of the government and the amount of land they are permitted to hold in useless occupancy. [illegible] Washington correspondent of the [illegible] we have the following table showing the number of reservations, the number of organized tribes and bands of Indians, the Indian population and the area of their reservations in each state and territory. The table contains information which has not before been published here in a form at once comprehensive and intelligible:

State or Territory	No. of Reservations	No. of Tribes and Bands	Population	Area
Washington	8		1,487	[illegible]
[illegible]		2	4,608	[illegible]
California	3	11	7,398	[illegible]
Arizona		8	5,0[illegible]	[illegible]
Nevada			6,094	644,[illegible]
Utah	1	1	17,880	139,010
New Mexico	4	8	18,640	912,914
[illegible]	1		3[illegible]	11,84[illegible]
Dakota	5	1	[illegible]	[illegible]
Idaho		5	4,4[illegible]	[illegible]
Montana	8	11	[illegible]	[illegible]
Wyoming	1		[illegible]	[illegible]
Nebraska	6	6	4,10[illegible]	1,0[illegible]
Kansas	6			[illegible]
Indian Territory			[illegible]	[illegible]
Minnesota	[illegible]		—	[illegible]
Wisconsin			[illegible]	[illegible]
Michigan	11	[illegible]	8,099	[illegible]
New York		10	4,804	[illegible]
Totals	[illegible]	[illegible]	[illegible]	[illegible]

The Indian tribes of Alaska are not included in this enumeration. The aggregate area of reservation lands as shown by this table if divided by the number of Indians would give each individual nearly [illegible] acres. There is no sense in allowing savage Indians to occupy such areas of territory of which they make no use of one acre in one hundred. The abuse is greatest in Oregon, Washington, Colorado, Montana and Dakota. It is probable that the figures representing the area of the reservations in Washington are much too small, as the reservation recently assigned to Moses can hardly be included in them.

One of the branches of industry which has been constantly increasing in the United States notwithstanding the depression of business for several years past has been the manufacture of paper, an interest which seems to have been managed with uncommon sagacity and enterprise. The use of American paper has been extending rapidly throughout the world and the exports have increased as well as the imports have decreased with great rapidity during the last ten years. Another cause of the growth of the industry is the immense cheapening of the process of manufacture due to the constant falling off in the price of raw material and the increasing use of cheap fibres which formerly were used only to a small extent. During the last ten years there has been a complete revolution in exports and imports. For the year ended June 30 1869 this country imported paper to the value of $527,465 and exported to the value of $3777 only. But for the year ended June 30 1879 the imports of paper were valued at only $126,862 while the exports had risen to the value of $1,213,312. Imports of paper now consist almost exclusively of fashionable and fancy writing papers and wall papers in which French manufactures seem as yet to excel.

The board of trade of Minneapolis, Minn., at a recent meeting discussed the project of an international northern railway from that city via Sault Ste Marie to Montreal with an outlet thence to Portland, Me. A few days ago THE OREGONIAN gave a short account of this project, which has been mentioned as affording a natural extension for the Northern Pacific by a short route to the Atlantic seabord. The board of trade of Montreal has now taken up the proposition, and has passed resolutions pledging the scheme all possible support. It was arranged to send a deputation to the government to urge the project upon their attention, and if possible to have them adopt the line as part of the Canadian Pacific railway. The St Paul *Press* earnestly supports the scheme as a necessary one to rid the grain business of the northwest of the exactions made by the pooled lines of Chicago, which during the past year have taken from the farmers twelve cents a bushel more than formerly. Such a road would shorten the distance from St Paul and Minneapolis to Montreal by 262 miles—and once at Montreal the shipper of wheat from Minneapolis and Dakota would be 626 miles nearer Liverpool than at New York.

Linn county, following the example of nearly every other county in the state, is marking down her valuation of property, presumably to escape her share of state taxes. Where is this thing going to stop? At the rate at which it has been going on the richest counties in the state make a beggarly showing and the whole state of Oregon appears to have about as much property as a county in Iowa. The actual value of property in the state is not less than one hundred and fifty millions, and yet the assessed valuation is only about one quarter of that sum. The most discouraging thing about it is that the legislature, though appealed to on many occasions, has shown no real disposition to correct the abuse, nor indeed any proper comprehension of the nature and magnitude of it. Each county is trying to throw the burden of the state's taxes on the other and each is laboring under the delusion that it is succeeding in its purpose. Success, however, goes no further than to establish an inequality this year which next year will be shifted and perhaps return upon the shirkers, since the counties can't all make money every year by cheating each other.

Mr. Besser, late chief of police, claims that the statement that the muddle in the Perry Baker case is the result of any fault on his part does him injustice. His statement is that he offered again and again to make the deed to Baker provided the common council would reimburse him for the actual cost of the advertising, which the council refused to do. This he says was a standing offer on his part for months but the council would not allow payment. He offered to waive all his own lawful fees but still the council refused, and he did not conceive it to be his duty both to give up his fees and pay out of his own pocket the advertising expenses. It is very evident that the common council committed a grave error when it refused to pay at proper time the few dollars necessary for the settlement of this matter. Had the just course been taken it would have saved much annoyance, litigation and expense.

Consternation dire prevails among the Mormons in whose midst the grand jury has recently been at work returning true bills against polygamists. Some idea of the perturbed mental condition of the saints may be derived from quotations from their inspired tongues. Apostle Woodruff, who is in concealment, swears that he will never abandon his wives and children at the demand of a nation steeped in sin and ripe for damnation, while Apostle Snow vows that he will see them in hell first. If the law is permitted to take its course these worthies will soon be where all the cursing that would be required to permeate the atmosphere of the whole universe with brimstone will [illegible] them no relief.

[illegible]

Then [illegible] who sneered at Senator [illegible] for [illegible] honest money [illegible] were [illegible] to depose him from the senate [illegible] committee therefore are now turning to him as the most available presidential candidate. It pays even for a politician to stick to sound principles. If anybody doubts this let him ask Senator Thurman.

In New York they are figuring close and waiting for [illegible] that are [illegible] bles our [illegible] former years for [illegible] and [illegible]

MR. TILDEN AND HIS PARTY

Since the election in New York the relations of Mr. Tilden to his party have become a subject of anxious discussion among the democratic seers and soothsayers who are casting about for the strongest name to conjure with in the coming presidential election. On the one hand Tilden's enemies declare that his cause is lost, that he never can unite his party; that it has been demonstrated that he cannot carry New York and this shelves him and therefore that the convention will of course not seriously think of nominating him. On the other hand his friends say that the result in New York actually leaves his strength unimpaired, that the Kelly faction has now done its worst and that its strength will steadily dwindle, that Tilden has resources as a political manager which are worth more to his party than it can possibly lose through this personal hostility to him, and consequently that he is the man of all men who should be nominated for 1880.

By some who are merely curious and impartial spectators of this quarrel it has been assumed that Tilden had been put out of the list of possible candidates by the war upon him in his own state and the defeat of his candidate for the governorship, and yet we suspect that within a few months there may be reason to recall this judgment as a hasty one, and accept the opposite opinion. New York is the state which must be carried by Mr Tilden's party if it would win the election. Republican success is possible without New York though not likely, but democratic success is not under any circumstances possible without that state. Now who can carry it as democratic candidate for the presidency if Tilden can not?

In the use of the adroit methods of the political organizer Tilden is unequalled. His organization of the contest of 1876 was a marvel of skill and efficiency. There was concentration of effort on vital points and everything else was disregarded. No effort was wasted on surely republican states. In the four northern states on which it had been decided to concentrate every effort, there was worked up a prodigious and unexampled vote. The work was done minutely and in detail. Back in the remote country districts hitherto neglected by the politician as well as in the crowded precincts of the cities the canvass was pushed with a thoroughness that was amazing. The emissaries of the reformer were everywhere. The local democracy were awakened and encouraged. Leaders of village opinion and men of influence in every neighborhood were sought out and engaged for the work. Needful money was furnished to fix the wavering and stimulate the faithful to additional exertions. The literary bureau was in constant operation furnishing editorials for half the democratic newspapers of the United States. The effect of all this work was seen in the enormous vote obtained for Tilden particularly in the four northern states in which the effort was chiefly made. The gain of the democratic vote in those states, as compared with the gain from one election to another in any former time was without parallel. It was the result of the thorough method which the reformer of Gramercy Park, alone among presidential candidates, has had the resources, and perhaps the disposition to employ.

Now if Tilden be set aside who is going to organize all this work and see it performed? Will Bayard? Will Hancock? The question is almost ridiculous. Under no candidate can the democratic party have so thorough a campaign as under Tilden. He is full of the resources of intrigue, has energy and skill, plenty of money and no scruples. His methods and his money are worth thousands of votes which he may offer as an offset to those he may lose through the machinations of his personal enemies—and then perhaps have a large balance to spare. His party is likely to reflect on these things and see them with a good deal of clearness by the time the selection is made.

AN OMINOUS VOTE

The letter published to day on "Grant and the Presidency" contains matter which republicans may profitably consider. It cannot be doubted that those republicans of New York who have 'scratched' Cornell would likewise "scratch" Grant, and some of them would be very likely to vote directly against him. It was not Cornell they opposed, but the system of politics of which he was understood to be a representative. That system was organized under Grant, and his re election would be understood as making it stronger than ever. This vote in New York shows a large body of republicans who cannot be dragooned into support of it, and they are so numerous that the party cannot possibly do without them. It may be taken as a certainty that they would "scratch" Grant even more resolutely than they have "scratched" Cornell. Unless Grant could get forty or fifty thousand democratic votes in New York and a proportional number in Ohio where could he surely obtain votes enough to give him those states? Sagacious politicians will do well to consider this situation and all who sincerely desire the success of the republican party will find it profitable to be candid about it. The letter we print is written by a well known republican who has never faltered in his support of the party from 1856 to this day. He is neither an office-seeker nor a "sore head," but writes simply as an observer of the signs of the times and as one who disinterestedly regards the success of the republican party next year as vital to the interests of the country. The observations he makes are a timely reminder to those who are talking about the country being wild and solid for Grant, that there is another side of the question which must be considered. Since Cornell ran 35 000 votes behind his ticket because he was a representative of the political methods of the Grant administration it is worth while to reflect upon the dangerous extent to which Grant himself would be scratched by the same class of republicans. It is better to speak of this matter now with courage and candor than to go it blindly for the Grant boom and get the eyes opened after it is too late. The vote in New York is significant and ominous. In that state there are tens of thousands of republicans who will not vote to continue and confirm Senator Conkling's hold upon its politics. This election therefore is a warning for 1880 and the best friends of the republican party are they who do not shrink from pointing it out.

INDIANS AND INDIAN LANDS

By the war with the Utes public attention has been drawn anew to our system of dealing with the Indians of the country and [illegible] for the time once more [illegible] in pointing out the error of the [illegible] in denouncing that [illegible] [illegible] will [illegible] difficulties with the Utes are settled [illegible] the [illegible] will [illegible] [illegible] take place [illegible] reservation.

[illegible] we are [illegible] in shape the important information as to the number of Indians under the wardship of the government and the amount of land they are permitted to hold in useless occupancy. [illegible] Washington correspondence of the [illegible] we have the following table showing the number of reservations the number of organized tribes and bands of Indians the Indian population and the area of their reservations in each state and territory. The table contains information which has not before been published here in a form at once comprehensive and intelligible.

[illegible]	[illegible]	[illegible]	[illegible]	[illegible]
Washington T	8		1 48[illegible]	[illegible]
Oregon			24,503	[illegible]
California	1	4	7 38[illegible]	409
Arizona			5 0[illegible]	1 9 000
Nevada			5 000	644 [illegible]
Utah		1	1 800	039 040
New Mexico	4	8	18 640	91 144
Colorado			[illegible]	11 84[illegible]
Dakota		1	[illegible] 813	[illegible] 65 [illegible]
Idaho			4 1 1	[illegible]
Montana	3	1	1	1 [illegible]
Wyoming			4 [illegible]	[illegible]
Nebraska	6	8	416	1 036,800
Kansas	[illegible]		2	[illegible]
Indian Territory			[illegible]	9 981
Minnesota			[illegible]	4 9 4 15
Wisconsin				1 1
Michigan	11	6	8 099	73 600
New York		1	4 805	[illegible]
Totals	[illegible]	[illegible]	[illegible]	[illegible]

The Indian tribes of Alaska are not included in this enumeration. The aggregate area of reservation lands as shown by this table if divided by the number of Indians would give each individual nearly 600 acres. There is no sense in allowing savage Indians to occupy such areas of territory of which they make no use of one acre in one hundred. The abuse is greatest in Oregon, Washington, Colorado, Montana and Dakota. It is probable that the figures representing the area of the reservations in Washington are much too small, as the reservation recently assigned to Moses can hardly be included in them.

One of the branches of industry which has been constantly increasing in the United States notwithstanding the depression of business for several years past, has been the manufacture of paper, an interest which seems to have been managed with uncommon sagacity and enterprise. The use of American paper has been extending rapidly throughout the world and the exports have increased as well as the imports have decreased with great rapidity during the last ten years. Another cause of the growth of the industry is the immense cheapening of the process of manufacture due to the constant falling off in the price of raw material and the increasing use of cheap fibres which formerly were used only to a small extent. During the last ten years there has been a complete revolution in exports and imports. For the year ended June 30 1869 this country imported paper to the value of $527 46[illegible] and exported to the value of $3777 only. But for the year ended June 30 1870 the imports of paper were valued at only $126 862, while the exports had risen to the value of $1 203 312. Imports of paper now consist almost exclusively of fashionable and fancy writing papers, and wall papers in which French manufactures seem as yet to excel.

The board of trade of Minneapolis Minn at a recent meeting discussed the project of an international northern railway from that city via Sault Ste Marie to Montreal with an outlet thence to Portland Me. A few days ago THE OREGONIAN gave a short account of this project which has been mentioned as affording a natural extension for the Northern Pacific by a short route to the Atlantic seabord. The board of trade of Montreal has now taken up the proposition, and has passed resolutions pledging the scheme all possible support. It was arranged to send a deputation to the government to urge the project upon their attention and if possible to have them adopt the line as part of the Canadian Pacific railway. The St Paul *Press* earnestly supports the scheme as a necessary one to rid the grain business of the northwest of the exactions made by the pooled lines of Chicago which during the past year have taken from the farmers twelve cents a bushel more than formerly. Such a road would shorten the distance from St Paul and Minneapolis to Montreal by 262 miles—and once at Montreal the shipper of wheat from Minneapolis and Dakota would be 626 miles nearer Liverpool than at New York.

Linn county following the example of nearly every other county in the state is marking down her valuation of property presumably to escape her share of state taxes. Where is this thing going to stop? At the rate at which it has been going on the richest counties in the state make a beggarly showing and the whole state of Oregon appears to have about as much property as a county in Iowa. The actual value of property in the state is not less than one hundred and fifty millions and yet the assessed valuation is only about one quarter of that sum. The most discouraging thing about it is that the legislature, though appealed to on many occasions, has shown no real disposition to correct the abuse nor indeed any proper comprehension of the nature and magnitude of it. Each county is trying to throw the burden of the state taxes on the other and each is laboring under the delusion that it is succeeding in its purpose. Success, however, goes no further than to establish an inequality this year which next year will be shifted and perhaps return upon the shirkers since the counties can't all make money every year by cheating each other.

Mr Besser late chief of police claims that the statement that the muddle in the Perry Baker case is the result of any fault on his part does him injustice. His statement is that he offered again and again to make the deed to Baker provided the common council would reimburse him for the actual cost of the advertising which the council refused to do. This he says was a standing offer on his part for months but the council would not allow payment. He offered to waive all his own lawful fees but still the council refused and he did not conceive it to be his duty both to give up his fees and pay out of his own pocket the advertising expenses. It is very evident that the common council committed a grave error when it refused to pay at proper time the few dollars necessary for the settlement of this matter. Had the just course been taken it would have saved much annoyance, litigation and expense.

Consternation dire prevails among the Mormons in whose midst the grand jury has recently been at work returning true bills against polygamists. Some idea of the perturbed mental condition of the saints may be derived from quotations from their inspired tongues. Apostle Woodruff who is in concealment, swears that he will never abandon his wives and children at the demand of a nation steeped in sin and ripe for damnation, while Apostle Snow vows that he will see them in hell first. If the law is permitted to take its course these worthies will soon be where all the cursing that would be required to permeate the atmosphere of the whole universe with brimstone will afford them relief.

OSCAR KILBOURN Auctioneer

TO CONSUMERS OF GIANT POWDER

HAVING BEEN INFORMED THAT REPRESENTATIVES of the California Powder Co have been making statements that the Hercules Powder manufactured by that Company is superior in explosive power to the

GIANT POWDER,

The Giant Powder Co authorize us to contradict such statements and we are ready to show at our office to any one interested the results of experiments made with Giant Hercules Vulcan Vigorite and safety powders proving most conclusively to all unprejudiced persons that the

GIANT POWDER IS SUPERIOR

to any of the imitations above named.

The Giant Powder Co. are willing at any time to put their different grades to a fair test against the regular grades sold by any of the Companies named and take this opportunity of warning consumers of Nitro glycerine Powders that as the above are all infringements of their patents, those using them render themselves liable for damages equally with the manufacturers. Suits have been instituted against these infringers which in view of recent decisions both in England and the Eastern States can have but one termination.

NOTICE

THE PUBLIC WILL PLEASE TAKE NOTICE that I have this day disposed of my entire interest in the livery business to Messrs. Holcomb Bros & Co of San Francisco who will continue to carry on the business at the old stand City Stables No 10 Second street and in connection there with will have a repository and salesrooms for their celebrated carriages, buggies, phaetons harness etc etc.

The entire department will be under the immediate charge and supervision of that very active and efficient business manager George W Lathy Esq who has had many years experience in the above business both in the eastern states and California.

Thankful for past favors I would bespeak a liberal share of the public patronage for my successors. B B ACKER

MONDAY MORNING, NOV 10 1879

WEATHER PROBABILITIES.

SPECIAL DISPATCH TO THE OREGONIAN.

WASHINGTON, Nov. 10.—12:30 A. M. For Pacific coast, partly cloudy weather and local rains.

CITY.

VERDICT OF ACQUITTAL.—After being out over 24 hours the jury in the case of the State of Oregon vs. L. M. Rodgers, who was tried in the state circuit court on the charge of larceny, returned a verdict of acquittal. The commonwealth in this case was represented by District Attorney Caples and his efficient deputy, M. F. Mulkey, and the defendant by Messrs. Mallory and Col. W. H. Effinger. The prosecution was conducted with marked ability and vigor, which may be truthfully said of the defense. However, the testimony in the minds of the jury was sufficient to warrant a verdict of acquittal, which was returned after a long deliberation.

WHERE IS HAMMOND?—The following postal card, addressed "To the Postmasters of Oregon," has been handed in which is published: "Please pass this postal card from office to office if possible, until it reaches that office from whence the person named E. W. Hammond gets his mail. I take this plan to ascertain his whereabouts in the interest of a dying mother, whose stay on this earth is fast drawing to a close. Any information will be most thankfully received by F. Wonderly, Sobelt City, Missouri."

MILITARY PRISONERS.—The following military prisoners were brought over to this city yesterday from Fort Vancouver and lodged in the city jail: Wm. Ryan, Wm. McNeil, J. B. Mills, Newton Stith and Lumburg. These prisoners have been tried for various military offenses and found guilty. They were taken away on the steamer this morning bound for Alcatraz. The prisoners are under charge of Sergeant Grunley of Major Boyle's company.

ARTICLES OF INCORPORATION.—Saturday articles of incorporation were filed in the office of the county clerk by the Northwestern Telephone and Electric Light Company. The incorporators are: George J. Ainsworth, H. F. Fairweather and Jas. H. Guild. Capital stock $50,000; each share $50. This company will establish a telephone line throughout the city under the control of the central system. The Bell telephone and transmitter will be used.

INCREASED MEMBERSHIP.—During the past week eleven firms joined the Merchants' Exchange, making the total membership 62. Considering that the institution has only been in existence six weeks, this is a large membership, yet it deserves a membership of not less than 200, for all having the interest of Portland or of this state at heart should patronize it. All are asked to call and examine its workings.

CHARGED WITH MALPRACTICE.—In the state circuit court, the suit of Ward S. Stevens vs Dr. E. A. Jones, was commenced last Saturday. Stevens, the plaintiff, charges malpractice on the part of Jones in administering to him morphine in large quantities, whereby his health has been seriously impaired. Damages are laid in the sum of $10,000. The most of the witnesses in the case are physicians of the city.

PASSED HIS EXAMINATION—Mr. Edward H. Brooke, son of Lloyd Brooke, Esq., has passed a very creditable examination before the military board at Vancouver, and has been appointed a second lieutenant in the United States army.

BALL AT THE DALLES.—Messrs. Handley & Sinnott have issued invitations for a grand ball at their new hotel, the Umatilla House at Dalles, to take place Wednesday of this week.

CHURCH FAIR.—The ladies of the Taylor street M. E. church we learn are making preparations to hold a fair during the last week in this month.

PERSONAL.

T. B. Odeneal, state printer, is in the city.

Capt. E. S. Farrow will be a passenger on the outgoing steamer for Washington City.

[illegible] J. A. Sladen is a passenger on the outgoing steamer this morning for San Francisco. He will be absent several weeks.

Maj. Charles Bonesteel, having been granted a leave of absence, will leave this morning on the outgoing steamer for Washington city.

H. Thielsen, who left this city several weeks ago for the purpose of consulting with Mr. Villard in regard to railroad interests, arrived at New York [illegible]. He is probably on his return.

[illegible] has been received by Drs. Logan and [illegible] of Dalles, of the proceedings of the international congress of medical sciences recently held at Amsterdam, Holland, that Dr. L. L. Rowland, president of the medical department of the Willamette university, and emeritus professor, was elected a member of that highly honorable [illegible] body, an honor accorded to but few [illegible] physicians, and before to none upon the Pacific coast. This is a compliment to the high scientific attainments of which he may well be gratified, and of which his many friends will be pleased to hear.

AMUSEMENTS.

PINAFORE.—The extraordinary success which has attended the visit of "H. M. S. Pinafore" to this city during the past week, has induced the commander to postpone hoisting the blue peter at the fore for three nights longer, and the ship and crew, with the "sisters and the cousins and the aunts," will remain open for inspection till Wednesday night, after which she will proceed to sea with all canvas set and colors flying. All landsmen who have hitherto neglected to visit this splendid specimen of marine architecture, will have an opportunity of repairing their error and should not fail to seize it thankfully. The buxom and comely "Josephine," the airy and sylph like "Hebe," the round and rosy "Buttercup," will all be on board to welcome their numerous admirers, and the bland "Sir Joseph," the courteous "Captain," the fascinating "Ralph," and the gruff "Dick Deadeye," will muster on the quarter deck to do honor to the visitors.

The matinee performance of Saturday was crowded to overflowing and we have little doubt that the exhibition to be given on Wednesday will rival it.

REAL ESTATE TRANSACTIONS.

BRIEF NOTES.

Rain again.

Rain nights again.

Steamer Elder due to-morrow.

The walking mania has reached Portland.

The steamer State of California sails hence this morning.

Several arrests for drunk and disorderly conduct during last night.

ANNUAL MEETING.

The second annual meeting of the stockholders of the Phil Sheridan Mining Co. will be held at the office of the company, at Portland, Oregon, on Friday, Nov. 13, 1879, at 7 o'clock P. M., for the purpose of electing a Board of Directors to serve for the ensuing year and the transaction of any other business which may properly come before the meeting.
C. D. FOLGER, Sec'y.

The best bargains can be found in dry goods and clothing at Comstock & Pfluger's.

Hardware and carpenters' tools, &c., &c., at Kilbourn's sale this morning.

The leading cigar and tobacco house in the city—Frank M. Cohn & Co., cor 1st and Alder.

THE ARENA.—Mechanics' Pavilion has been leased by Messrs. Plymale & Parker, and will be opened in a few days as a Skating Rink.

As a tonic, and for all nervous complaints, Simmonds' "Nabob Whisky" is unequaled. To be had at all druggists and grocers.

The large stock of Comstock & Pfluger's is being sold at cost. Many are taking advantage of the circumstances.

Glass.—Coggins & Beach have just received 1000 boxes of single and double thick glass, which they are selling at lowest rates.

WANTED.—Second hand furniture and stoves, for which the highest price will be paid. Address lock box 844.

Masquerade suits and wigs for rent; mask trimmings and masks for sale, at Mrs. Chas. Tichnor's, corner First and Yamhill streets.

STRIDES ON THE SAWDUST.

The Walking Contests at the New Armory Hall and at Turn Halle.

Exhibition Walks—Quarter Mile Walks Between Miss Florence and Miss Wiley at the Armory, and Miss Denman and Miss Donley at Turn Halle.

The walking [illegible] commenced at the new Armory Hall, [illegible] Washington and Front streets, [illegible] management of Mr. I. F. Blackburn, last [illegible] evening at 8 o'clock. As has been [illegible] announced the match consisted of [illegible] between Miss Susie Wiley and Miss Grace Florence. Three thousand quarter miles are to be walked in three thousand quarter hours. Each contestant is required to walk one quarter of a mile every 15 minutes. The remaining time after each walk of the quarter of a mile is allowed for rest. Miss Von Berg was also announced to give exhibition walks at intervals.

A large crowd assembled at the hall, and at 8 o'clock the signal was given, and Miss Grace Florence dashed off at a quick nervous gait. The walk is on the outer edge of the hall, its length 28 times constituting one mile. The track is about six feet wide and is covered mostly of sawdust laid on the floor to the depth of several inches. On the inner side of the track posts are placed at the intervals of about two yards, and a rope stretched along the tops to keep spectators from getting in the way.

At 9 o'clock last evening a representative of THE OREGONIAN called on Miss Grace Florence. The little lady was reclining on a bed, attended by her nurse Mrs Kimes. She looked bright and cheerful, notwithstanding she had been on the tramp for 22 hours. In the course of a conversation it was learned that Miss Florence was a native of Massachusetts and will be 21 years of age next month. She weighs 110 pounds and is 5 feet and 3½ inches high. Miss Florence is a demi-blonde, has a broad forehead, brown eyes and very pleasant features. She conversed freely and seemed in excellent spirits. To the question: "Do you feel tired?" she smilingly responded: "Did you ever see a pedestrian who was tired? Why, I would not dare to think of getting tired now. You have not slept any since you commenced last evening, have you?" asked the reporter. "Not a wink," she replied, "I do not feel sleepy at all yet, but expect I will before I get through with this thirty days' walk. Miss Florence talks fluently on a variety of subjects, used good language, and evidently is a lady of education. She has not been walking more than three months, her first appearance in the arena being in the six day walk at San Francisco under the management of the Olympic Club. She walked only 36 hours, during which time she made 140 miles. She is dressed in a loose white satin walking dress, wears, when walking, a jaunty silk skull cap, and carries in her hand a small riding whip. Her gait reminds one of the walk of a boy, buoyant, light and easy.

Miss Susie Wiley is a bright, handsome brunette of a most pronounced type. She was born in Boston and is 17 years old. Her weight is 127 pounds; height, 5 feet and 6 inches. Miss Wiley's first appearance as a walker was at Mechanics' Pavilion, San Francisco, at the six days' walk commencing on the 8th of last October. She walked 36 hours, covering a distance of 205 miles. Like Miss Florence, Miss Wiley has not slept any since 8 o'clock Saturday evening, but looks bright and evinces no fatigue whatever. She has a quick, elastic step and seems to walk with little effort. She wears a maroon colored walking habit trimmed with blue, and carries on her head a jocky cap of purple silk. Miss Wiley is constantly attended by her nurse, a Mrs. Schoil, who is assiduous in her attentions.

Miss Bertha Von Berg, the holder of the Walton champion belt, is a well proportioned young woman, with strongly marked features by no means homely. She has a rather broad face, decidedly Teutonic but of pleasant expression. Miss Von Berg was 21 years old last June, is 5 feet and 4 inches high and weighs 145 pounds. She is a native of Rochester, New York. The first prize won by her was at a walking match at Rochester, New York, commencing on the 13th of August, 1878. The distance was 100 miles, which was won by Miss Von Berg in 26 hours and 54 minutes. She first won the champion belt last April at Gilmore's Gardens at the six days' walk. She walked the six days out, covering a distance of 372½ miles. There were 18 entrances but all but 5 contestants dropped out. She again won the belt at Piper's Opera House, Virginia City, last August, against Miss Tourtillotte. During the six days Miss Von Berg walked 308 miles. She has got to hold the belt for 18 months after winning it against all female competitors before it is her own. Saturday evening she gave an exhibition walk at the Armory of 10 miles, completing that distance in one hour and 56 minutes. During the evening she made several lively spurts. Yesterday afternoon she gave an exhibition walk and also one last evening, making very excellent time.

Wednesday evening there will be a walking match between Miss Von Berg and an amateur of this city named Wm. Dogan; distance 10 miles for $50 a side. Some good time is expected.

Up to 6 o'clock last evening 88 quarters (22 miles) had been made by Miss Florence and Miss Wiley. At 34 minutes past 8 o'clock Miss Wiley completed her hundredth quarter of a mile in two minutes and 50 seconds, and Miss Florence in 3 minutes and 14 seconds. At 12 o'clock last night 112 quarter miles had been made.

As the quarter mile walks commenced at the same time in both halls the score is the same at Turn Halle as at the Armory.

The Contest at Turn Halle.

The tests of endurance and speed at Turn Halle commenced Saturday night at 8 o'clock, and from the beginning until one A. M. Sunday attracted large crowds. The track is similar to the one at Armory Hall, except that it has rounded instead of abrupt turns, which render the labors of the contestants much less wearisome and their walks more graceful. The track has a foundation of two inches of loam, over which the same thickness of sawdust is spread. Cushioned benches and cane-seat chairs, inside of and facing the track, occupy the center of the building, the hall is brilliantly lighted and comfortably warmed, and excellent music is furnished by well known players on a Steinway on the stage. Here also are seated three reporters of the city papers, who call the contestants with a tap of the bell, keep the score of laps and the time.

Promptly at 8 o'clock Saturday night Miss Alice Donley, a bright eyed, curly haired miss of nineteen, clad in a dark navy blue cashmere trimmed with pale blue satin, the skirt reaching to the knee and tied back with a broad satin bow, and wearing a blue silk jockey cap, made her appearance and walked her first quarter in two minutes and fifty seconds, amid much applause. Seven and one-half minutes later Miss Lillie Denman, a tall, handsome, well formed miss, made her appearance and was greeted with cheers. She was clad in a very pretty Highland costume of subdued color, with hat to match, and walked with a graceful, swinging, slow gait, making her first quarter in 3:40.

Misses Donley and Denman have undertaken the task of walking 1000 quarter miles in 1000 quarter hours. The former, who has won an excellent reputation as a six-day "go as you please" walker, prefers a quick pace, while the latter, who has a record of 700 quarter miles in an equal number of quarter hours, chooses to walk slowly.

20 MILE WALK AGAINST TIME.

At twenty minutes past eight Misses Belle Sherman and Sadie Donley began a walk of twenty miles "go as you please." For the first mile they kept well together, Miss Sherman making long, even, but not at all graceful strides. Miss Donley, a young miss of sixteen who was dressed like her sister, took short, quick steps, closing her hands, bending her arms at acute angles, and swinging them in front of her with a piquante air, expressing saucily, without words "well, if you're coming along why don't you come." After the first two miles, both contestants started running and kept it up for twenty laps or more, apparently without fatigue. Miss Sherman gradually gained, making first five miles in 54 minutes; ten miles in 1 hour, 50 minutes; fifteen miles, 2 hours, 15 minutes, and twenty miles in 3 hours, 40 minutes; her average being a mile in eleven minutes. Miss Donley made 18 miles and 17 laps while her opponent made 20. Neither one left the track during the walk. Miss Sherman at the finish seemed not at all worried, but was in as good condition as at the commencement, as was Miss Donley, except that the latter suffered some from pain about her left ankle which was sprained a few months ago.

The quarter mile contestants appeared regularly at quarter hours and walked their allotted eight laps.

Last Night's Exhibition.

All Saturday night, all day yesterday and last night the monotonous walks of one quarter of a mile were kept up without variation, except when occasionally one or the other of the contestants made spurts of speed, which were applauded by the crowd in attendance. At 12 o'clock last night neither Miss Donley nor Miss Denman had taken any sleep, and they did not expect to fall into the arms of Morpheus until this evening.

At 8 o'clock last night Emmet Fitzgerald, who acts as trainer and coacher of Miss Denman, began a walk of five miles, square heel and toe, which he finished in 48:15—first mile, 8; second, 10; third, 9:45; fourth, 10:30; fifth, 10. Miss Sadie Donley then walked five miles, heel and toe, in one hour and one minute. Fitzgerald then ran five miles without stopping, finishing his task in 36:15—first mile, 6:45; second, 7; third, 7; fourth, 8; fifth, 7:30.

Personnel of the Walkers.

Miss Lillie Denman is a native of Kansas and is 22 years old. Her first walk was at Montreal last June, when she made 700 quarter miles in 700 quarter hours. She was a contestant in the late match at the Mechanics' Pavilion in San Francisco, where she made 161 miles in three days, but withdrew on account of a sprained ankle.

Miss Alice Donley, as well as her sister Sadie, is a native of Iowa and is 19. Her only walking before this was at the six days' contest at the Mechanics' Pavilion, San Francisco, commencing on the 8th of October, under the management of Lawton & Macneale. She made 280 miles and took the fourth money.

Miss Sadie Donley is 16, and is one of the youngest, if not the youngest pedestrienne in the United States. Her first effort was at Platt's Hall, San Francisco in June, where she made 750 quarter miles in as many hours, and was withdrawn by the manager, E. C. Cotton, to enter the six days' contest in July. In this contest Miss Donley made 248 miles and took third money. In the October contest she made 321 miles in six days, took second money and gold and silver medal.

Miss May Belle Sherman is a native of Maine and is thirty four years old. She has a record of fifty miles in less than eleven hours at Boston last year; actual walking time, [illegible] resting, [illegible]. She was the winner of the first [illegible] consisting of a diamond medal, and first money in the six day October contest at the San Francisco pavilion, where she made 337 miles.

Go to 27 Oak street between First and Second, for a good cup of coffee [illegible].

Smoke New York or Woods [illegible] cigars.

Sewing Machine Needles, all kinds, at Barbey's.

For the latest thing out in cigars call at Talbot's, 21½ First street.

For Dyspepsia, Damiana Bitters. Fleckenstein & Mayer are sole agents.

Why kill yourself on that wretched machine? Take it to Barbey, Yamhill street.

Boss cigar stand is T. H. Marks & Co.'s, First and Washington sts. Finest stock.

For the Kidney and Bladder, Damiana Bitters. Fleckenstein & Mayer are sole agents.

OYSTERS.—Eastern oysters by every steamer at Keith's, corner First and Oak streets.

Her sisters, cousins and aunts were not satisfied until Abell gave each and all a sitting at his famous Gallery, which is becoming more popular daily.

THE NATURAL SCIENCE ASSOCIATION

The regular monthly meeting of the Natural Science Association was held last Friday evening, on which occasion Dr. G. H. Chance read a paper on "Gold in Nature." It proved most instructive and entertaining and was very favorably received. Beginning with a description of the physical and chemical properties of the metal, the nature and distribution of the rocks in which it occurs were considered. The doctor's extensive mineral cabinet furnishing specimens of each. Some of these specimens are of the rarest beauty, showing the deposition of the gold in the quartz in the form of crystals, threads, scales, plates, grains and masses. Of particular interest was the description of the theory at present accepted as to the manner in which the gold bearing quartz was originally deposited in the fissures and cracks of ancient rocks. The best authority asserting that the quartz was not deposited in a molten condition, but by a process of solution and infiltration, through the medium of superheated water.

At the next regular meeting in December, Mr. Guild will read a paper, the subject being "Shells."

An informal meeting will be held on Friday, November 21, when Mr. Wm. Lundberg will again present his photographic demonstrate the value of some of his original experiments as to its improved construction.

Any inquiries about the association should be addressed to Dr. G. B. Eaton, the secretary.

POSTAL STATISTICS,

Postmaster Cole received a circular from the postoffice department at Washington, requiring him to make an actual count of all letters, postal cards and packages of third and fourth class matter deposited at the postoffice during the first seven days of November. In compliance with such instructions Mr. Chittenden, assistant postmaster here, in absence of Postmaster Cole, has during the past week made a full count. The following is the result:

Letters mailed from Nov. 1st to Nov. 7th, inclusive	21,504
Postal cards mailed	3,351
Transient papers mailed	7,203
Parcels of merchandise mailed	332
Total number of letters, postal cards and other matter mailed during the week	32,389

MILITARY NOTES.

A board of officers will convene at Vancouver barracks, W. T., on Wednesday, Dec. 10, 1879, or as soon thereafter as practicable, to examine and report upon a knapsack invented by Lieut. Col. H. C. Merriam, 2d infantry. The following officers have been detailed for the board: Major Charles G. Sawtelle, quartermaster, chief quartermaster; Major Wm. M. Graham, 4th artillery; Capt. George M. Downey, 21st infantry. The junior member will report the proceedings.

PASSENGERS FOR PORTLAND.

The steamship Geo. W. Elder sailed from San Francisco for this port at 5 o'clock Saturday afternoon with a full freight and the following list of passengers:

THE COURTS.

PORTLAND, Nov. 8, 1879.

STATE CIRCUIT COURT—BELLINGER, J.

Thomas Wilge vs James Macey—Judgment on the verdict.

Oliver Taylor vs scow Zetta—Submitted to the jury.

State vs L. M. Rodgers—Jury out.

The Grand Jury present four indictments and two not true bills.

W. S. Stevens vs E. A. Jones—Suit for damages; on trial.

POLICE COURT—STEARNS, J.

Keeping opium house—Pat. Carroll $10.

Drunk and disorderly—Frank Davis, Jack Montevedo, Edward Brogan, N. L. Barg, Pat. Burns, Gus. Taylor, Barney Haggerty, each $5.

Roaming around the streets at a late hour—Emma Sheridan, Lizzie Johnson, each $5.

Larceny—Chinese Charley, $25.

Assault with a dangerous weapon—Thomas Fallen, continued, and defendant admitted to bail in $700.

One of the largest of the drygoods stores of Paris was visited in one day recently by 64,921 persons, and the money taken amounted to 1,135,372 francs 80 centimes. There were sold 420,000 francs' worth of silk, 70,000 francs' worth of umbrellas, 34,000 francs' worth of artificial flowers and 25,000 francs' worth of fichus. The ladies were making their provisions for the winter season.

The English press is getting Americanized. Our journals never printed anything more offensively personal than the publications in London Truth and Town Talk, upon which the Langtry and Cornwallis West libel suits were based, nor anything more sensational than the reports of that and the Cooper trials in the London daily press.

The public is rapidly finding out that Davidson's customers get photographs which please them, and save money by patronizing his gallery. Cards $2 50 and cabinets $4 per dozen.

C. D. Harvey, who exhibited the hot water system of warming buildings at the Mechanics' Fair, will remain in the city for ten days, during which time he will examine buildings and furnish estimate of cost free of charge, on application. Enquire at J. Barrett's or J. Donnerberg's.

D. W. Prentice & Co., Music Dealers, have removed to the store lately occupied by J. K. Gill & Co., 107 First street, where with largely increased stock in all their lines they will be glad to meet their old friends and customers. Messrs. P. & Co. intend making their store the center of attraction for goods in their line, and are determined to continue to hold prices down to New York prices. They have the largest and most complete assortment of musical merchandise in this city.

Ladies' hairdresser, Miss Cecelia Blackwell, 110 Morrison, between Fourth and Fifth.

WM. SCHEFFLER'S ST. HELENA

SANITARY, VACUUM DISTILLED GRAPE BRANDY AND GOOD OLD ST. HELENA WINES.

Mr. Scheffler is sole proprietor of the principle known as the vacuum process of distilling, by which the fusil oils are left with the residue and not incorporated with the brandy, leaving it pure and free from all deleterious substances which does and must exist in all alcoholic liquors distilled by the usual process of boiling heat. California Physicians have pronounced their preference of it to all other. Doctor [illegible] government revenue officer at Cincinnati, Ohio, says in his report, that after [illegible] years of close investigation he can safely say that very few, if any, pure wines or brandy are imported from the Old Continent to the [illegible]. He has found none in his many analyses—that all are doctored before leaving France. The French Consul at Buenos Ayres writes home to his government that so much complaint is made there of the appearance of [illegible] and other dangerous drugs in all their French wines that there is great danger of losing the trade of the Argentine States. Other proofs could be cited were it necessary, to prove the superiority of the best class of California wines and brandy. Orders from responsible parties, addressed to Wm. Scheffler, or Geo. H. Beach, St. Helena, Napa county, Cal., will receive prompt attention.

COLUMBIA RIVER EXPORTS.

The following table from the Astorian shows the exports for the first of 1879 So:

	Values
SEPTEMBER, 1879.

Chew Venable & Co.'s Red-Tag Tobacco.

Forewarned Forearmed.

Physicians and invalids use with confidence The Kaiser Celebrated German Elixir for Consumption and throat and lung diseases. It is rich in the medical properties of tar, wild cherry, etc. Is rendered perfectly harmless to the youngest child. This would have proved an Angel of Mercy in the household of those unhappy parents at Vallejo, Dixon, Beaver, Utah and numerous other places, whose children were slaughtered by quack medicine recommended by its owner to cure croup, possessing no properties calculated to cure it, but instead a deadly drug which has slain its thousands. Be sure you get only German Elixir. The genuine bears the Prussian coat of arms and the fac-simile signature of Dr. Kaiser. Samples at all drug stores. Large size 75 cents.

Read and Learn for Yourself.

Many valuable discoveries and much useful knowledge is kept from the world, because of the immense expense in making them known to the people. This is not the case with BOSCHEE'S GERMAN SYRUP. Although but a few years introduced into this country, its sale now reaches in every town and village in the United States. Its wonderful success in curing consumption, severe Coughs, Pneumonia, Asthma, and all other diseases of the throat and lungs, was first made known by distributing every year, for three years, over 400,000 bottles to the afflicted, free of charge, by druggists. No such a test of merit was ever given before to any other preparation. Could you ask more? Go to your druggist and get a bottle for 75 cents and try it. Sample bottles 10 cents.

FINNEN'S HAVANA CIGAR STORE

Has the largest and best selected stock of cigars in the city, comprising New York, Key West and Imported Havanas. Call and be convinced that you can get a better article for a less price than at any other store in the city. No. 182 First st., near Alder. Sole Agency for the Celebrated Kerba and Speis New York Cigars.

SUICIDE.

A distinguished Scientist once said "No man with a strong, healthy stomach ever committed suicide, yet many suffer the torments of the damned with dyspepsia, when a single bottle of DR MINTIE'S ENGLISH DANDELION LIVER AND DYSPEPSIA PILLS will give relief, and, if persisted in, cure the worse case of this distressing trouble. This pill cures torpid liver, biliousness, sallow complexion, foul breath, sick headache, heartburn, pain in side and back, removes pimples from the face, regulates the bowels, is sugar-coated and guaranteed purely vegetable. It acts directly on the coating of the stomach and on the liver; is suited to any climate, wet or dry weather. Beware of imitations; genuine has cut of lion on outside wrapper. Price, 50 cents. Sold by all druggists. Hodge, Davis & Co., Portland, wholesale agents.

How to Save Money.

Instead of going to a doctor, if you have Bright's Disease, Diabetes, pain in back and loins, smarting, inflammation, calculi, brick-dust deposit, or any trouble of the kidneys or bladder, buy a bottle of DR. MINTIE'S NEPHRETICUM, the great Buchu Compound. It is the best prescription ever compounded for these troubles. Abrams & Carroll, Wholesale Druggists, say: "We regard Nephreticum as the best Kidney and Bladder Remedy in the market." Woodward, druggist, Portland, Oregon, says: "Everybody speaks highly of it." Childs, druggist, Portland, says: "Sold lots of it; it always does the work." Many have been cured of obstinate kidney complaints after the doctors gave them up. Sold by all druggists. Price $1 25. Hodge, Davis & Co., Portland, Wholesale Agents.

Sir Astley Cooper's Vital Restorative.

The great English remedy—has made more cures of Nervous Debility, Seminal Weakness, Lost Manhood, nocturnal emissions, lassitude, inability for mental labor, despondency, and such diseases as are induced by youthful follies and excesses, than all other medicines combined.

It is not a stimulant nor excitant, is perfectly safe to take, is not a quack nostrum, and produces results that are wonderful.

Price, $3 a bottle. Four times the quantity, $10. Buy a bottle. It will not disappoint you. Hodge, Davis & Co., wholesale agents.

500 Overcoats and Ulsters a way down prices—the latest and most nobby goods in the market. We have just opened an Immense stock. Also a large lot of Boys' Ulsters and Overcoats from $5 up $10. Bargains for all at J. KOHN'S CLOTHING PALACE, cor. First and Morrison sts

WEEK OF PRAYER.

For Young Men and Young Men's Christian Associations

In concert with the Young Men's Christian Associations throughout the work, the Young Men's Christian Association of our city will observe this their appointed week of prayer.

On Monday evening the meeting will be led by Rev. A. L. Lindsley, D. D.; subject "A Moral Young Man Weighed and Found Wanting." References: Mark x: 17-22.

On Tuesday evening meeting to be led by Rev. J. H. Acton, D. D.; subject, "The Son of a Godly Father who Went Astray," 2 Chron., xxxi.

On Wednesday evening the meeting will be led by Rev. A. S. Clark; subject, "A Man Prospered beyond Precedent, but [illegible] [illegible]" Jonah [illegible].

Thursday evening meetings will be held in the various churches. Subject, "The Secret of a Young Man's Success in Business." Gen. xxxix, 1-6, 22 and 23.

On Friday evening the meeting will be led by Rev. [illegible] Clapin; subject, "A Highly Favored Man and his Terrible End." Matt. x: 1-4, [illegible] 17 and 18; Acts i, 16-25.

On Saturday night the open temperance meeting.

On Sunday afternoon, November 16th, at 3 o'clock; subject, "Opposite Chances of Two Young Men," Heb. xi: 24-26, Gen. xiii: 10-18.

Strangers are specially invited to all these meetings.

Our fair city has nine handsome drug stores, and they all agree that PFUNDER'S OREGON BLOOD PURIFIER is the most popular remedy sold.

Nabob Whisky is recommended by the faculty for family and medical use. It is pure and is the best whisky on the Pacific coast for indigestion, nervousness and dyspepsia.

FIREMEN'S ELECTION.

NOMINATION FOR CHIEF ENGINEER

T. A. JORDAN, of Columbian No. 3.

AT THE REGULAR MEETING OF COLUMBIAN Engine Company No 3, held on Tuesday evening, October 7, 1879, the following resolution was unanimously adopted:

Resolved, That Columbian Engine Co. No. 3 unanimously present the name of THOMAS A. JORDAN, our Foreman during the past five years, to the Firemen of the city of Portland as a candidate for Chief Engineer.

J. W. WHALLEY, President.
THOMAS NEALLY, Secretary. o8dtde?

UNANIMOUSLY ENDORSED BY NO. 4'S.

HALL OF PROTECTION ENGINE CO. No. 4,
PORTLAND, Or., Nov. 6, 1879.

At a regular meeting of the above company the following resolutions were unanimously adopted:

WHEREAS, Thos. A. Jordan, an active and experienced fireman, having been nominated by Columbian Engine Co. No. 3 a candidate for the position of chief engineer of the P. F. D. at the coming election; be it

Resolved, That we, the members of Protection Engine Co. No. 4, having confidence in the ability of the nominee, do hereby unanimously endorse the action of the above named company, and do hereby pledge him our hearty support; and be it further

Resolved, That the foregoing be inserted in the daily papers.
J. C. MORELAND, President.
Attest:
W. F. MATTHEWS, Secretary.

THOMAS A. JORDAN UNANIMOUSLY ENDORSED.

HALL OF TIGER ENGINE CO., No. 5,
Nov 4, 1879.

At a regular meeting of the above company, held this date, the following resolution was unanimously adopted and ordered published in the daily papers:

Resolved, That Tiger Engine Co., No. 5, hereby endorses the action of Columbia Engine Co., No. 3, in nominating Thomas A. Jordan as a candidate for Chief Engineer at the coming election, knowing him to be possessed of superior qualifications for that position. We pledge him our hearty support.
(Signed) GEO. P. SEARS, President.
n5dtd W. J. KELLY, Secretary.

NOMINATION FOR CHIEF ENGINEER.

W. H. ANDRUS, OF NO. 1.

HALL OF WILLAMETTE ENGINE CO. No. 1,
PORTLAND, Oreg., Oct. 3, 1879.

AT A REGULAR MEETING OF WILLAMETTE Engine Company No. 1, held at their hall on Thursday evening, Oct. 2, 1879, the following preamble and resolutions were unanimously adopted:

WHEREAS, Sound judgment and deliberate conduct in the active discharge of his duties are the pre-eminent requisites of ability in the head officer of a live and efficient fire department, and

WHEREAS, A fireman of many years active service possessing such marks of ability, who has served for nearly four years as chairman of the committee of the common council having control of matters relating to the needs and efficiency of the Portland Fire Department, is well worthy of the confidence and support of all firemen as a man who would ably and faithfully discharge the duties of chief engineer and successfully lead and direct the department in times of activity and critical service: therefore

Resolved, That Willamette Engine Co. No. 1 esteems Mr. W. H. Andrus to possess such worthy requisites of ability, and we, the members of said company, pledge him our hearty and united support hereby nominate him for the office of Chief Engineer of the Portland Fire Department, and respectfully present his name to the consideration of voters at the regular election in December, 1879.

The Daily Oregonian.

MONDAY MORNING, NOV. 10 1879.

THE NORTHWEST.

Western Oregon.

Farmers throughout the valley are busy putting in grain.

The bridge across the Santiam river at Mehama is about completed.

State Superintendent Powell has published an open letter specially complimenting the public schools of Eugene City.

There is stored at Buena Vista, about 100-000 bushels of wheat awaiting shipment. Sacks are out calling for fully 8000 more.

Mrs. Samuel Simmons died near Woodburn last week, aged 75 years. The deceased came to Oregon in the year 1845 and with her husband, settled on Howell prairie, where they lived nearly twenty years. She had been in feeble health for many years.

Says the *Astorian*: The *Eliza McNeal* left Philadelphia for this port June 22d. If as reported, she was spoken October 19th in the Atlantic, 30, 40, the question is what has she been about for the previous four months? If 30, 40 in the Pacific was meant, she would be up in the mountains of Mexico somewhere. Something is wrong somewhere.

Junction City held her annual city election on last Monday. Six tickets were in the field. Considerable interest was manifested and several knock downs occurred. The citizens' ticket was elected by a handsome majority. The following are the successful aspirants: Councilmen, W. S. Lee, J. W. Newcomb, J. M. Beebe, George F. Craw, Jno. Wortman; recorder, J. M. Lafferty; marshal, James Casteel; treasurer, E. H. Roach. Whole number of votes cast, 111.

Eastern Oregon.

Business is still brisk on the W. V. R. R., especially in wheat of which they are receiving from 15 to 20 car loads per day.

The steamboat *Spokan* will be engaged the rest of the season in carrying railroad material from Celilo to Ainsworth. She will probably make two trips per week.

Snake river navigation is at an end for the season, so far as Lewiston and Almota are concerned, but if the giant powder does its work, steamboating will be kept up next year to a much later period, and bigger loads carried during the boating season.

A Dalles paper boasts: "Our fire department is in better order than was ever known before, and all that is now needed is a new supply of ladders and hooks for the Grant truck to make the Dalles fire department the most useful and efficient of any in the state, except Portland."

Wasco county is destined to produce large quantities of wheat by hillside farming, which has become so important a source of wealth in the counties of Columbia and Walla Walla, in Washington territory. The amount of sod broken during the past season, to be seeded during the coming winter, is nearly double what was broken up during the previous year.

The Dalles *Inland Empire* reports a wail of anguish from the fatted swine of Wasco. The trenchant blade of the sanguinary-minded butcher, rusted by long disuse, has invaded the throat of his swineship, and hence these tears. The farmhouse is hung about with long festoons of sausages, while the broad old pine table groans under its goodly load of head-cheese, soused ears, pig's feet, liverwurst and cracklings. One of the most profitable productions of Wasco is pork, and the "crop" this year is large.

Few persons in Webfoot are aware of the extent of the stock business in Harney valley and vicinity. Devine and Todhunter, probably the most extensive dealers, are men of great enterprise, and have been engaged in the business since 1861. They have 12,000 or 15,000 here in the valley, and 15,000 or 20,000 head south of Stein Mountain. They send each year to the San Francisco and Sacramento markets between 2000 and 3000 head of beef, and branded last year 5000 or 6000 calves. They employ nearly 100 vaqueros and use more than 200 saddle horses.

Yamhill *Reporter*: There is a flattering report from the tillers of the soil throughout this prolific Yamhill garden, and it comes from the remotest niche and corner of every direction. The plough-boys have done a good job this season, for a certainty. In most cases summer-fallowed ground is seeded, and many of our farmers inform us that they have gotten in the most of their stubble ground besides. Notwithstanding the showery weather, farmers still stick to the work a good share of the time, with a determination to get the advantage of the rust, if there is anything in early seeding, and the prospect is that there will be but a small proportion of planting to be done in the spring.

Southern Oregon.

The late rains have put land in excellent condition and the farmers are making use of the clear weather. There will be more wheat sown this fall than ever before—weather permitting.

The following are the officers of the Siuslaw agricultural society: J. A. Stewart, president; John Simpson, vice president; F. M. Nighswander, secretary; Chas. Hadley, treasurer; David Coleman, J. A. Crow, and Martin Wingard, directors.

The *Inland Empire*, of The Dalles, whose editor, Mr. T. R. Merry, was a resident of Coos Bay, says: The Coquille river, once famous for its white cedar lumber, is now being converted into quite a wheat-growing section of country. The warehouse of Reed & Nelson, at Norway landing, has about 150 tons of wheat stored to await shipment to San Francisco. Four years ago, when we lived in Coos county, she could not produce her own breadstuffs. Now her maple bottoms give her all she needs for home consumption, and she exports 500 tons per year to San Francisco. All this change inside of a brief space of four years, proves that the whole of Oregon is moving ahead.

GRANT AND THE PRESIDENCY.

PORTLAND, Nov. 8, 1879.

TO THE EDITOR OF THE OREGONIAN:

At one time I thought the best interests of the nation and the success of the republican party foreshadowed the nomination of Gen. Grant in 1880, and I then favored such nomination. But circumstances now prove that with good, honest work any republican statesman of acknowledged ability and pure reputation can be elected to the next presidency. Circumstances have so changed that I am inclined to think that Grant would now be the weakest candidate that could be nominated. In addition to the instinctive prejudice against a third term, which may mean a lever to secure a fourth term, Grant would encounter the active opposition of liberals. Against such opposition New York and Ohio could not be carried. In each of those states they are the balance of power.

The recent election in New York was a virtual defeat for Cornell. The liberals, justly or unjustly, regard Grant as the great promoter of "machine" politics. They know that under him, Mr. Conkling was the real dispenser of patronage in the empire state; that, to increase his chances for the republican nomination in 1876, Grant made Don Cameron, who had no special ability or claims upon the party, his secretary of war. They fear that his re-election will strengthen Mr. Conkling's hold upon the politics of that state, and that the presidential power may be used to again re-elect Grant, or failing in that, Conkling.

The "youthful scratchers" are being sneered at by the New York *Tribune*, which journal manifestly desires to keep them united so as to solidify them against the nomination of Grant. To ask the liberals of New York to quietly submit to the arrogant domination of Conkling for four, perchance eight more years will strain their party loyalty to the extremest tension. Again, the Germans of the country are almost unanimous in their hope that civil service reform may become a reality. They know that Grant's election may defer that hope. Under these circumstances such nomination may imperil a republican success next year. W. S. B.

Proclamation of Thanksgiving.

The following proclamation has been issued by the president of the United States:

At no recurrence of the season which the devout habit of religious people has made the occasion for giving thanks to Almighty God, and humbly invoking His continued favors, has the material prosperity enjoyed by our whole country been more conspicuous, more manifest or more universal. During the past year, also, unbroken peace with all foreign nations, the general prevalence of domestic tranquility, the supremacy and security of the great institutions of civil and religious freedom, have gladdened the hearts of our people and confirmed their attachment to their government, which the wisdom and courage of our ancestors so fitly framed, and the wisdom and courage of their descendants have so firmly maintained to be the habitation of liberty and justice to successive generations. Now, therefore, I, Rutherford B. Hayes, president of the United States, do appoint Thursday, the 27th day of November instant, as a day of national thanksgiving and prayer, and I earnestly recommend that, withdrawing themselves from secular cares and labors, the people of the United States do meet together on that day in their respective places of worship, there to give thanks and praise to Almighty God for His mercies, and to devoutly beseech their continuance. In witness whereof, etc.

William H. Vanderbilt pays all the expenses of bringing Cleopatra's needle from Egypt to New York, and of setting it up in Central Park.

ANNUAL MEETING OF THE CHRISTIAN CHURCH.

Second Day.

MONMOUTH, Or., Nov. 5, 1879.

Elder P. R. Burnett, being in the chair, opened the meeting with prayer, and, after singing, the committee on programme submitted a report which was adopted.

The following additional churches which sent no delegates, reported prosperity by mail—namely: The churches at Scio, Pleasant Hill, Oak creek, Eugene, Spencer creek, Junction, Harrisburg and Halsey.

On motion of Elder R. H. Moss, of Dallas, the plan adopted the past two years by this co-operation for missionary work, was adopted for the ensuing year.

Upon motion of Elder Bruce Wolverton, the co-operation voted to make Portland a point for special effort the coming year. A committee consisting of Elders Bruce Wolverton, [illegible] Adams and W. H. Adams was appointed to report at once a plan of action for such effort.

The co-operation then proceeded to the annual election of officers with the following result: President, T. F. Campbell; secretary, B. Wolverton; missionary board—B. Wolverton, chairman, [illegible] Adams, secretary; and A. H. Johnson, treasurer.

Adjourned until 1 o'clock.

AFTERNOON SESSION.

The special committee to whom was referred the matter of the Portland church submitted a report recommending the appointment of an executive committee of three, whose duty it should be to authorize agents in the several counties to collect money and take subscriptions to the amount of $3000 which sum should be raised in the next six months and paid to the trustees of the Christian church at Portland, Oregon, for the purpose of purchasing a building lot in that city. The report was adopted, and Bruce Wolverton, P. R. Burnett and W. H. Adams were appointed as such committee.

The chairman of the missionary board, Wm. Dawson, submitted his report for the past year, which report was accepted and placed on file.

On motion a committee of three was appointed to report upon a place for holding the next co-operation meeting, consisting of E. W. Barnes, R. H. Moss and C. A. Wallace to report Thursday morning. The time of such meeting was, upon motion, left with the missionary board, to report three months before the time fixed upon, through the public press.

It was moved and carried unanimously that the thanks of this co-operation be tendered to the O. & C. R. R. Co., and W. O. R. R. Co. for favors, as well as to the Monmouth brethren, for hospitalities extended to the delegates present, after which the meeting adjourned to meet again November 6th at 9 A. M.

On the evening of the 5th Elder Bruce Wolverton delivered a most interesting and instructive address upon "Our Wants and Embarrassments," which was attentively listened to by a large audience.

Third Day.

Elder P. Shuck, of Marion, opened the meeting with prayer. President T. F. Campbell in the chair. Minutes of previous meeting were read.

The committee on education reported Christian college, located at Monmouth, Oregon, the only educational institution in the state under the care of the church as in a flourishing condition with the following efficient faculty: President, T. F. Campbell; professor of physical science, D. T. Stanley; professor of languages, P. L. Campbell; principal preparatory department, L. M. Nursger; assistant, Miss Mildred Bidwell.

The committee appointed to select a place of meeting, being unable to agree upon a locality, on motion Portland was chosen as the place at which the co-operation meeting for 1880 should be held.

The committee on publication reported the *Pacific Christian Messenger*, published at Monmouth, Oregon, as ably conducted and worthy of patronage.

A resolution was passed requesting the brethren in California and Washington territory to send two or more delegates to our next annual state co-operation meeting.

The matter of Sunday schools was taken up and discussed, and reports from a large majority of the churches in the state showing prosperous Sunday schools under their charge were submitted, after which the meeting adjourned until the call of the missionary board in 1880.

The continued rains made it rather unpleasant for delegates coming from a distance, but aside from this, every one seemed well pleased with the work accomplished, and all went away with thankful hearts for the many acts of hospitality shown by the Monmouth brethren, and with renewed zeal for the missionary work of the coming year.

The Tremont House, Boston's oldest hotel, has just celebrated its semi-centennial, having been first opened to the public in 1829. The corner-stone was laid July 4, 1828, with much ceremony, and, though now considered old fashioned and gloomy, such an elegant hotel the country had not then seen. When first opened for inspection 20,000 persons thronged its parlors for three days.

FINANCE AND COMMERCE.

Financial.

SATURDAY EVENING, November 8, 1879.

SAN FRANCISCO, Nov. 8.—Silver coin, 99¾ buying; par selling.

NEW YORK, Nov. 8.—Silver Bullion—1000 fine, per fine ounce, 15⅞.

KING OF THE BLOOD

THE MOST THOROUGH PURIFIER OF THE BLOOD YET DISCOVERED.

Cures all Humors, from a Common Eruption to the Worst Scrofula.

It purifies the Blood.
It invigorates the Liver.
It regulates the Bowels.
It strengthens the Stomach.

It gives vivacity in place of lassitude; cheerfulness in place of gloom, and robust vigor in place of debility.

Dyspepsia, Biliousness, Disordered Liver, Constipation, Nervous Affections, General Debility, in short all the numerous diseases and discomforts caused by impure blood are speedily conquered by this powerful corrector, the chief and sovereign of all ancient or modern medical discoveries—KING OF THE BLOOD.

ITS NAME IS ITS BEST DESCRIPTION, as it is a royal dispenser of the blessings of health, and vanquishes the foes that lurk in the blood.

It banishes PIMPLES, SALT RHEUM, SCALY ERUPTIONS, ULCERS, SCALD HEAD, FEVER SORES and all SCROFULOUS DISORDERS.

It checks CONSUMPTION in its early stages. It has frequently cured it when advanced.

It disperses TUMORS and CANCERS without the Surgeon's knife.

It cures DROPSY, general or partial.

It cures FEMALE WEAKNESS and DISEASE.

It reduces in a safe and effectual manner all swellings, external or internal.

It eradicates the effects of Mineral Poisons, and establishes a sound constitution.

Many certificates, much further information and full directions for using, will be found in the pamphlet, "Treatise on Diseases of the Blood," in which each bottle is enclosed.

Price $1 per bottle containing 12 ounces, or 50 to 5[illegible] doses. Sold by Dealers in medicine.

THE

PATENT STANDARD

TRADE N. B. MARK.

OVERALLS

Are sold by leading dealers in this city and on this coast, because—

"THEY CONTAIN THE BEST MATERIAL, ARE SEWN WITH LINEN THREAD, And ARE THE MOST PERFECT FITTING."

In putting on or taking off Overalls, the strain on the crotch often causes them to rip, and to remedy this we are making a continuous strip of cloth, extending the entire length of both sides of the Overall from the crotch and secured thereto at every point. *Under these improvements, we claim that our Overalls will stand greater strain than any other make in the market.*

Observe the Trade Mark and take no other.

DR. PAUL M. BRENAN

The Most Successful Physician on the Pacific Coast.

IN THE TREATMENT OF ALL

CHRONIC AND DIFFICULT DISEASES.

HAS RETURNED AFTER AN EXTENSIVE tour of the Eastern States, for the past four months. The Doctor while absent visited all the principal Medical Institutions in the large cities of the United States, and comes back with all the modern methods, instruments and appliances known to the most scientific men in the profession. The Doctor has also brought charts and manikins to illustrate his lecture.

DR. PAUL M. BRENAN has been fifteen years lecturing on the Laws of Life and Health. In his private and public lectures he has taught men and women the true system of life how to be healthy and happy, if they would only be guided by his wise counsel. But all cannot hear his delightful and instructive lectures, nor can he tell everything necessary for suffering humanity to know from the public rostrum before a promiscuous audience. There remains much to be learned from him as his experience extends over broad fields of active professional life. This knowledge so necessary to the welfare of the sufferer can only be gleaned by private Professional Consultation at his office.

His experience in the various parts of Europe and America give him such opportunities of learning the delicate diseases which the human family are prone to, their mode of treatment and permanent cure, as no other physician on the Pacific Coast can claim. He has not only treated these diseases most successfully, but has made them a life study, as a few moments' consultation will prove.

He has become an expert in the treatment of diseases, weakness and derangement of the reproductive organs of both male and female, including diseases caused by the

FOLLIES OF YOUTH,

Such as SPERMATORRHEA or SEMINAL WEAKNESS, or LOSS OF PERFECT VITALITY. Nearly two thirds of all the Chronic Diseases spring, either directly or indirectly from some derangement of the sexual system and yet this subject is neglected by the majority of the Medical Profession.

IT IS TRUE

That persons who are unfortunate enough to be afflicted by any form of sexual disease have a delicacy in calling upon the proper physician for aid from a sense of modesty and [illegible]

The Daily Oregonian.

MONDAY MORNING NOV 10 1879

THE NORTHWEST

Western Oregon

Farmers throughout the va[illegible]y are b[illegible] putting in grain

The bridge across the [illegible] Ma hama is about completed

State Superintendent [illegible] an open letter specially complimenting the public schools of Eugene City

There is stored at Buena Vista about 10 000 bushels of wheat awaiting shipment Sacks are out calling for fully 8000 more

Mrs Samuel Simmons died near Woodbur last week aged 8 years The deceased came to Oregon in the year 18[illegible] and with her husband settled on Howell prairie where they lived nearly twenty years She had been in feeble health for many years

Says the *Astorian* "The *Fa[illegible] Mc[illegible]* left Philadelphia for this port June 2d If as reported she was spoken October [illegible] in the Atlantic 30 4[illegible] the question is where has she been about for the previous four months If 30 40 in the Pacific was meant, she would be up in the mountains of Mexico [illegible] where Something is wrong somewhere

Junction City held her annual city election on last Monday Six tickets were in the field Considerable interest was manifested and several knock downs occurred The citizens ticket was elected by a handsome majority The following are the successful aspirants Councilmen W S [illegible] I W Newcomb J M Beebe George F Craw Jno Wortman recorder J M Lafferty marshal James Casteel treasurer B H Roach Whole number of votes cast 111

Eastern Oregon.

Business is still brisk on the W W P R especially in wheat of which they are receiving from 15 to 20 car loads per day

The steamboat *Spokan* will be engaged the rest of the season in carrying railroad material from Celilo to Ainsworth She will probably make two trips per week

Snake river navigation is at an end for the season, so far as Lewiston and Almota are concerned but if the giant powder does its work, steamboating will be kept up next year to a much later period, and bigger loads carried during the boating season

A Dalles paper boasts "Our fire department is in better order than was ever known before, and all that is now needed is a new supply of ladders and hooks for the Grant truck to make the Dalles fire department the most useful and efficient of any in the state except Portland"

Wasco county is destined to produce large quantities of wheat by hillside farming which has become so important a source of wealth in the counties of Columbia and Walla Walla, in Washington territory The amount of sod broken during the past season to be seeded during the coming winter is nearly double what was broken up during the previous year

The Dalles *Inland Empire* reports a wail of anguish, from the fatted swine of Wasco The trenchant blade of the sanguinary minded butcher, rusted by long disuse has invaded the throat of his swineship, and hence these tears. The farmhouse is hung about with long festoons of sausages, while the broad old pine table groans under its goodly load of head-cheese, soused ears pigs feet liver wurst and cracklings One of the most profitable productions of Wasco is pork, and the "crop" this year is large

Few persons in Webfoot are aware of the extent of the stock business in Harney valley and vicinity Devine and Todhunter probably the most extensive dealers are men of great enterprise, and have been engaged in the business since 1861. They have 12 000 or 15,000 here in the valley, and 15 000 or 20 000 head south of Stein Mountain They send each year to the San Francisco and Sacramento markets between 2000 and 3000 head of beef, and branded last year 5000 or 6000 calves. They employ nearly 100 vaqueros and use more than 200 saddle horses

Yamhill Reporter. There is a flattering report from the tillers of the soil throughout this prolific Yamhill garden, and it comes from the remotest niche and corner of every direction The plough-boys have done a good job this season, for a certainty In most cases summer-fallowed ground is seeded, and many of our farmers inform us that they have gotten in the most of their stubble ground besides Notwithstanding the showery weather, farmers still stick to the work a good share of the time, with a determination to get the advantage of the rust if there is anything in early seeding, and the prospect is that there will be but a small proportion of planting to be done in the spring

Southern Oregon.

The late rains have put land in excellent condition and the farmers are making use of the clear weather There will be more wheat sown this fall than ever before—weather permitting

The following are the officers of the Siuslaw agricultural society J A Stewart president, John Simpson, vice president, F M Nighswander, secretary, Chas. Hadley treasurer, David Coleman, J A Crow, and Martin Wingard, directors.

The *Inland Empire*, of The Dalles whose editor Mr T B Merry, was a resident of Coos Bay, says The Coquille river, once famous for its white cedar lumber is now being converted into quite a wheat growing section of country. The warehouse of Reed & Nelson, at Norway landing, has about 150 tons of wheat stored to await shipment to San Francisco. Four years ago when we lived in Coos county, she could not produce her own breadstuffs. Now her maple bottoms give her all she needs for home consumption, and she exports 500 tons per year to San Francisco. All this change inside of a brief space of four years, proves that the whole of Oregon is moving ahead

GRANT AND THE PRESIDENCY

PORTLAND Nov 8 1879

TO THE EDITOR OF THE OREGONIAN

At one time I thought the best interests of the nation and the success of the republican party foreshadowed the nomination of Gen Grant in 1880, and I then favored such nomination. But circumstances now prove that with good, honest work any republican statesman of acknowledged ability and pure reputation can be elected to the next presidency Circumstances have so changed that I am inclined to think that Grant would now be the weakest candidate that could be nominated. In addition to the instinctive prejudice against a third term, which may mean a lever to secure a fourth term, Grant would encounter the active opposition of liberals Against such opposition New York and Ohio could not be carried In each of those states they are the balance of power

The recent election in New York was a virtual defeat for Cornell The liberals justly or unjustly, regard Grant as the great promoter of "machine" politics They know that under him Mr Conkling was the real dispenser of patronage in the empire state that, to increase his chances for the republican nomination in 1876 Grant made Don Cameron, who had no special ability or claims upon the party, his secretary of war They fear that his re-election will strengthen Mr Conkling's hold upon the politics of that state, and that the presidential power may be used to again re elect Grant or failing in that, Conkling

The "youthful scratchers" are being sneered at by the New York *Tribune* which journal manifestly desires to keep them united so as to solidify them against the nomination of Grant. To ask the liberals of New York to quietly submit to the arrogant domination of Conkling for four perchance eight more years will strain their party loyalty to the extremest tension Again the Germans of the country are almost unanimous in their hope that civil service reform may become a reality They know that Grant's re[illegible] may defer that hope Under these circumstances such nomination may [illegible] republican success next year

W S B

Proclamation of Thanksgiving

The following proclamation has been issued by the president of the United States

At no recurrence of the season which the habit of religious people has made the occasion for giving thanks to Almighty God and humbly invoking His continued favors has the material prosperity enjoyed by our people [illegible] more conspicuous more multiplied or more universal During the past year [illegible] peace with all foreign nations [illegible] lence of domestic tranquility [illegible] security of the [illegible] religious freedom [illegible] of our people [illegible] to their [illegible] courage of our ancestors [illegible] wisdom and courage [illegible] firmly maintain [illegible] and justice to [illegible] tory [illegible] United States [illegible] of November [illegible] giving and prayer [illegible] that, withdrawing from [illegible] and labors, the people [illegible] meet together on that day [illegible] their respective places of worship there to give thanks and praise to Almighty God for His mercies and to devoutly beseech their continuance [illegible]

William H Vanderbilt pays all the expenses of bringing Cleopatra's needle from Egypt to New York, and of setting it up in Central Park.

ANNUAL MEETING OF THE CHRISTIAN CHURCH.

Second Day

MONMOUTH O Nov [illegible]

Elder [illegible] Burnett being in the chair opened the meeting with prayer and after singing the committee on programme submitted a report which was adopted

The following additional churches which sent delegates reported prosperity by mail [illegible] The church at [illegible] Pleasant Hill [illegible] Engine [illegible] Creek [illegible]

On motion of Elder P[illegible] [illegible] adopted the past two years [illegible] tion for missionary work was [illegible] suing year

Upon motion of Elder Bruce Wolverton [illegible] co operation vote [illegible] to [illegible] special effort the [illegible] consisting of Elders Bruce W[illegible] W H Adams [illegible] plan of act[illegible]

The co-operation then proceeded to the annual election of officers with the following result President T F Campbell [illegible] B W [illegible] missionary board—B Wolverton [illegible] Adams secretary and A H Johnson [illegible]

[illegible]

The [illegible] committee to whom was referred the matter of the Portland church submitted a report recommending the appointment of an executive committee of three whose duty it shall be to [illegible] their agents in the several [illegible] to take subscriptions to the amount of $2000 which sum is [illegible] to be raised in the next [illegible] months and [illegible] to the [illegible] church in Portland Oregon for the purpose of purchasing a building lot in that city The report was adopted and Bruce Wolverton [illegible] Bur[illegible] and W H Adams were appointed as such committee.

The chairman of the missionary board Wm Dawson submitted his report for the past year which report was accepted and placed on file

On motion a committee of three was appointed to report upon a place for holding the next co-operation meeting consisting of E W [illegible] R H Moss and C A Wallace to report Thursday morning The time of such meeting was upon motion left with the missionary board to report three months before the time [illegible] upon through the public press.

It was moved and carried that the thanks of this co operation be tendered [illegible] & [illegible] R R Co and W O R R Co for favors [illegible] as well as to the Monmouth brethren for hospitality extended to the delegates present after which the meeting adjourned to meet again November 6th at 9 A M

On the evening of the 6th Elder Bruce Wolverton delivered a most interesting and instructive address upon Our Wants and Embarrassments which was attentively listened to by a large audience

Third Day.

Elder P Shuck of Marion opened the meeting with prayer President T F Campbell in the chair Minutes of previous meeting were read

The committee on education reported Christian college located at Monmouth Oregon the only educational institution in the state under the care of the church as in a flourishing condition with the following efficient faculty President T F Campbell professor of physical science D T Stanley professor of languages P [illegible] Campbell principal preparatory department [illegible] M Nor[illegible] assistant Miss Mildred Bidwell

The committee appointed to select a place of meeting, being unable to agree upon a locality on motion Portland was chosen as the place at which the co operation meeting for 1880 should be held

The committee on publication reported the *Pacific Christian Messenger* published at Monmouth Oregon as ably conducted and worthy of patronage

A resolution was passed requesting the brethren in California and Washington territory to send two or more delegates to our next annual state co operation meeting

The matter of Sunday schools was taken up and discussed and reports from a large majority of the churches in the state showing prosperous Sunday schools under their charge were submitted after which the meeting adjourned until the call of the missionary board in 1880

The continued rains made it rather unpleasant for delegates coming from a distance but aside from this every one seemed well pleased with the work accomplished and all went away with thankful hearts for the many acts of hospitality shown by the Monmouth brethren and with renewed zeal for the missionary work of the coming year

---

The Tremont House Boston's oldest hotel has just celebrated its semi centennial having been first opened to the public in 1829 The corner stone was laid July 4 1828 with much ceremony and though now considered old fashioned and gloomy such an elegant hotel the country had not then seen When first opened for inspection 20 000 persons thronged its parlors for three days

KING OF THE BLOOD

THE MOST THOROUGH PURIFIER OF THE BLOOD YET DISCOVERED

Cures all Humors, from a Common Eruption to the Worst Scrofula

It purifies the Blood

It invigorates the Liver,

It regulates the Bowels

It strengthens the Stomach

It gives vivacity in place of lassitude cheerfulness in place of gloom and robust vigor in place of debility

Dyspepsia Biliousness, Disordered Liver Constipation, Nervous Affections General Debility in short all the numerous diseases and discomforts caused by impure blood are speedily conquered by this powerful corrective the [illegible] and sovereign of all ancient or modern medical discoveries—King of the Blood

ITS NAME IS ITS BEST DESCRIPTION as it is a true dispenser of the blessings of health, and vanquishes the foes that lurk in the blood

It banishes PIMPLES SALT RHEUM SCALY ERUPTIONS ULCERS SCALD HEAD LIVER SORES and all SCROFULOUS DISORDERS

It checks CONSUMPTION in its early stages It has frequently cured it when advanced

It disperses TUMORS and CANCERS without [illegible] surgeon['s] knife

It cures DROPSY general or [illegible]

It cures FEMALE WEAKNESS and DISEASE

It reduces [illegible] and effects [illegible] external or internal

DR. PAUL M. BRENAN

The Most Successful Physician on the Pacific Coast,

IN THE TREATMENT OF ALL

CHRONIC AND DIFFICULT DISEASES.

HAS RETURNED AFTER AN EXTENSIVE tour of the Eastern States for the past four months. The Doctor while absent visited all the principal Medical institutions in the large cities of the United States and comes back with all the modern methods instruments and appliances known to the most scientific men in the profession The Doctor has also brought charts and manikins to illustrate his lectures

DR PAUL M BRENAN has been fifteen years lecturing on the Laws of Life and Health In his private and public lectures he has taught men and women the true system of life how to be healthy and happy if they would only be guided by his wise co[illegible] But all cannot hear his delightful and instructive lectures no can he tell everything, excess [illegible] suffering humanity [illegible] from the public [illegible] before a promiscuous audience. There remain [illegible] to be learned from him as his experience extends over broad fields of active professional life. This knowledge so necessary to the welfare of the sufferer can only be obtained by private Professional Consultation at his office

His experience in the various parts of Europe and America give him such opportunities of learning the delicate diseases which the human family are prone to their mode of treatment and permanent cure as no other physician on the Pacific Coast can claim He has not only treated these diseases most successfully but has made them a life study as a few moments consultation will prove

He has become an expert in the treatment of [illegible] weakness and [illegible] of the reproductive [illegible] male and female including [illegible] caused by the

FOLLIES OF YOUTH.
